Editorial Review

From Library Journal

James's 1901 novel is his only first-person narrative. The action is seen through the eyes of an unnamed narrator, a novelist attending a weekend party at an English estate. As the story progresses, the narrator begins to detect vast changes in his fellow guests as they begin taking on each other's personalities.

From the Back Cover

One of Henry James's most mesmerizing and unusual novels, *The Sacred Fount* (1901) has for its scene a weekend party at the great English country house Newmarch. Here James leads the reader down a bizarre garden path. *The Sacred Fount*--his only novel to employ a first-person narrator--places us in the hands of an obsessive novelist (never named and never described, but perhaps familiar), who detects alarming changes in his acquaintances.

About the Author

American novelist, short-story writer, and man of letters, James is a major figure in the history of the novel. One of the pioneers of psychological realism and complex prose style, he holds a place as an unparalleled interpreter of the world of today.
