Creation and Blessing is an exceptionally helpful guide for pastors and teachers. Its literary, exegetical, and theological analyses will enrich any exposition of Genesis.

The author's purpose is to "help the reader appreciate the major literary and theological motifs that form the theological ideas in the narratives, and to demonstrate how these theological ideas can be developed into clear and accurate expository ideas." To accomplish this goal, he divides Genesis into more than sixty units, discussing each unit's theological ideas, describing its structure, and synthesizing its message, as well as providing an exegetical outline, an expository outline, and a bibliography.

"The quality of *Creation and Blessing* seems to require superlatives. . . . It models the kind of writing that those who teach must give to those who preach to facilitate accurate and rich exposition. Indeed, reading the book is an excellent course in studying and expounding narrative literature."

--**Van Campbell**, *Journal of the Evangelical Theological Society*

"Ross has written an excellent study guide to Genesis. His prodigious book, which he refrains from calling a commentary, contains fine scholarship and an excellent survey of previous work on this first book of the Bible. His writing is so interesting that the book became for me more than a source; it became bedside reading material. . . . Ross aims this detailed and lengthy study of Genesis at pastors, teachers, and seminary students who seek to develop an understanding of Genesis and narrative literature in general. He succeeds admirably. . . . For those preaching and writing on Genesis, and for those who love the book as great theology and literature, Ross's work is essential."

--**R. G. Branch**, *Old Testament Essays*
