- How to set it up
- How to install operating systems
- How to install software applications
- How to use basic and even advanced commands
- How to create new programs
- How to troubleshoot common and less common problems
- How to use specific applications such as Scratch, the Raspberry Pi 2 Camera Module and Nano
- How to adapt and change the configuration of your Raspberry Pi 2
- The basics of programming
- Do's and don'ts
- Recent developments
- Quick, handy and very useful tips
- How to connect it to other hardware
- How to expand its memory

And much, much more! Even complex ideas are presented with great clarity, step by step, in a language that is accessible to all, even those that have never used a program command based computer before.
