Creatus (Creatus Series) (Volume 1) By Carmen DeSousa

The Creatus series is not your normal paranormal story ... it's a realistic romantic mystery based on the myths you've heard your entire life. Prepare to believe ...

Derrick is one of the creatus, created beings who have lived on the earth for more than four thousand years. Many questions surround the origin of these sentient beings who are stronger than humans, eat differently, and live longer. But they were created just as we were, maybe even before us. It is from them we obtain our fairy tales--and our nightmares. They are the reason we believe in superheroes--and monsters. Because...they exist.

In the past, they kept the human race safe from an anonymous distance. But now Derrick must come out of the darkness to save a woman he has no business loving, even if doing so may threaten his entire race.

Reviews:

"This story is completely unique, and is definitely not generic sex and vampires. In fact, I think Creatus will redefine the paranormal genre. Creatus has intrigue, suspense, romance, and tremendous depth." -- Top 1000 Amazon Reviewer Vine Voice

"This book could easily classify itself as romance / mystery / suspense / thriller... I'm not a big Twilight fan, but I did enjoy the first movie... I found Creatus reminding me somewhat of Twilight, but with actors I loved." -- New York Times and USA Today bestselling author Linda S. Prather

Bonus Material! This edition now includes The Prequel: Creatus (They Exist), Creatus - Book One, and a sneak peek at Creatus Rogue - Book Two.

Reader, beware, the first review listed below has a major spoiler in the first sentence.

Editorial Review

From the Author

If you haven't read the prequel novella, CREATUS (They Exist), I recommend that you download it first. It doesn't give away any secrets of the creatus series, but it sets the stage for what's to come, and you will better understand the characters' actions in book one.

From the Inside Flap

As the sun's rays peeked above the horizon, lighting the abyss below her, she inhaled a deep breath, closed her eyes, and jumped. She didn't scream; she didn't look down. As much as she hated her life, she hoped it wouldn't end this way. She'd really like to see him one more time.

Her life didn't flash before her eyes as she'd always heard. Just an image of her mother covered in blood and her Dark Angel telling her he was sorry.

About the Author

Although all of Carmen's stories have a common thread--romance, mystery, and suspense--not all of her novels are supernatural. Her first five books are romantic-suspense whodunits. They are all stand-alone novels; however, she does link each of her stories with a little surprise. She also has a series of mysteries with a ghostly edge. Please look for all of her books on her Amazon author page.
