Editorial Review

About the Author

Dino Esposito is a well-known web development expert. He speaks at industry events, including DevConnections and Microsoft TechEd, contributes to MSDN® Magazine and other publications, and has written several popular Microsoft Press books, including Microsoft ASP.NET and AJAX: Architecting Web Applications.

Even though he's still a teenager (15 years old), Francesco Esposito has accumulated significant experience with mobile application development for a variety of platforms, including iOS with Objective C and MonoTouch, Android via Java, Windows Phone, and even BlackBerry. He wrote most of the code for IBI12-the official app for the Rome ATP Masters 1000 tennis tournament. When not writing apps, hanging out with friends, or practicing water polo, he likes going to school where his secret goal is to achieve the highest marks ever so he can get a scholarship and buy his own Surface tablet.

Users Review

From reader reviews:

Arthur Walker:

The ability that you get from Start Here! Build Windows 8 Apps with HTML5 and JavaScript could be the more deep you looking the information that hide in the words the more you get serious about reading it. It does not mean that this book is hard to recognise but Start Here! Build Windows 8 Apps with HTML5 and JavaScript giving you buzz feeling of reading. The writer conveys their point in a number of way that can be understood by anyone who read the idea because the author of this e-book is well-known enough. This kind of book also makes your own personal vocabulary increase well. So it is easy to understand then can go with you, both in printed or e-book style are available. We propose you for having this kind of Start Here! Build Windows 8 Apps with HTML5 and JavaScript instantly.

Ernest Villa:

This Start Here! Build Windows 8 Apps with HTML5 and JavaScript is great publication for you because the content that is certainly full of information for you who have always deal with world and possess to make decision every minute. This book reveal it details accurately using great plan word or we can declare no rambling sentences inside it. So if you are read that hurriedly you can have whole info in it. Doesn't mean it only provides you with straight forward sentences but difficult core information with lovely delivering sentences. Having Start Here! Build Windows 8 Apps with HTML5 and JavaScript in your hand like getting the world in your arm, facts in it is not ridiculous a single. We can say that no reserve that offer you world in ten or fifteen moment right but this guide already do that. So , this really is good reading book. Hey Mr. and Mrs. active do you still doubt in which?

Jerald Higgins:

Do you like reading a e-book? Confuse to looking for your preferred book? Or your book has been rare? Why so many concern for the book? But any kind of people feel that they enjoy intended for reading. Some people likes reading through, not only science book but additionally novel and Start Here! Build Windows 8 Apps with HTML5 and JavaScript or even others sources were given know-how for you. After you know how the truly amazing a book, you feel would like to read more and more. Science reserve was created for teacher or perhaps students especially. Those ebooks are helping them to bring their knowledge. In additional case, beside science reserve, any other book likes Start Here! Build Windows 8 Apps with HTML5 and JavaScript to make your spare time far more colorful. Many types of book like this one.

Paul Quintana:

As a college student exactly feel bored in order to reading. If their teacher inquired them to go to the library or to make summary for some e-book, they are complained. Just small students that has reading's heart or real their passion. They just do what the trainer want, like asked to the library. They go to there but nothing reading seriously. Any students feel that reading through is not important, boring and also can't see colorful pics on there. Yeah, it is to get complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore , this Start Here! Build Windows 8 Apps with HTML5 and JavaScript can make you experience more interested to read.
