Editorial Review

From the Back Cover

The Ultimate JavaServer Faces Resource

Deliver feature-rich, cross-browser Internet applications using JavaServer Faces (JSF) and this one-stop guide. Written by experts directly involved in developing this important technology, *JavaServer Faces: The Complete Reference* fully explains every aspect of JSF.

The book begins with a fast-paced introduction so you can get your first JSF application up and running quickly. Then, each aspect of JSF is examined in depth, including the request processing lifecycle, page navigation, component development, AJAX, validation, internationalization, and security. Throughout, Expert Group Insights offer an insider's view into the design of JSF. Inside you'll find:

- Comprehensive coverage of the JSF lifecycle, managed beans, expression language (EL), the Faces event, UI component, and navigation models
- Techniques for transforming and processing data from disparate sources using converters and validators
- A complete, integrated sample application to use as a model for your own JSF applications, with code available online
- Instructions on how to use Hibernate to integrate JSF with production-quality databases
- Details on building AJAX-enabled custom UI components, complete with numerous examples
- Instructions for extending Faces by building custom non-UI components ranging from validators and converters to NavigationHandlers and ViewHandlers
- Techniques for debugging and developing automated software tests for JSF applications
- Extensive discussions of third-party Faces technologies, including MyFaces, ADF Faces, Facelets, Shale, and Faces-enabled IDEs
- Detailed coverage on security (using JAAS), accessibility, internationalization, and localization with JSF

About the Author

Chris Schalk is a principal product manager and lead JSF evangelist for Oracle's application server and development tools division.

Ed Burns is a senior staff engineer at Sun Microsystems, Inc., and has led the development of JavaServer Faces technology since its inception. He currently co-leads a team of experts from across the industry in the continued development of JSF.

James Holmes is a leading Java Web development authority. He is a committer on the Struts project and the author of *Struts: The Complete Reference*.

Edited by **Herbert Schildt**, Java authority and bestselling author of *Java: The Complete Reference*.

Users Review

From reader reviews:

Melissa Chandler:

What do you regarding book? It is not important along with you? Or just adding material when you require something to explain what you problem? How about your extra time? Or are you busy individual? If you don't have spare time to do others business, it is make one feel bored faster. And you have free time? What did you do? Everyone has many questions above. The doctor has to answer that question since just their can do in which. It said that about publication. Book is familiar in each person. Yes, it is appropriate. Because start from on kindergarten until university need this kind of JavaServer Faces: The Complete Reference (Complete Reference Series) to read.

Hilary Rangel:

Reading a book tends to be new life style on this era globalization. With examining you can get a lot of information that could give you benefit in your life. With book everyone in this world can easily share their idea. Textbooks can also inspire a lot of people. A great deal of author can inspire all their reader with their story or their experience. Not only the story that share in the publications. But also they write about advantage about something that you need instance. How to get the good score toefl, or how to teach your young ones, there are many kinds of book which exist now. The authors nowadays always try to improve their talent in writing, they also doing some study before they write on their book. One of them is this JavaServer Faces: The Complete Reference (Complete Reference Series).

Lindsay Washington:

Playing with family inside a park, coming to see the sea world or hanging out with good friends is thing that usually you may have done when you have spare time, subsequently why you don't try matter that really opposite from that. A single activity that make you not sensation tired but still relaxing, trilling like on roller coaster you are ride on and with addition associated with. Even you love JavaServer Faces: The Complete Reference (Complete Reference Series), you may enjoy both. It is fine combination right, you still want to miss it? What kind of hang type is it? Oh seriously its mind hangout fellas. What? Still don't obtain it, oh come on its known as reading friends.

Danny Solberg:

As a student exactly feel bored in order to reading. If their teacher questioned them to go to the library or make summary for some guide, they are complained. Just small students that has reading's heart and soul or real their leisure activity. They just do what the instructor want, like asked to go to the library. They go to there but nothing reading significantly. Any students feel that examining is not important, boring in addition to can't see colorful images on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this JavaServer Faces: The Complete Reference (Complete Reference Series) can make you feel more interested to read.
