Editorial Review

Review

Now in a fully updated edition, this essential text explores the post-communist half of Europe along with the problems and potential it brings to the region and to the world stage. Clear and comprehensive, the book offers an authoritative and up-to-date analysis of the transformations and realities in today's Central and Eastern Europe, the Baltics, and Ukraine. The book presents a set of comparative country case studies, as well as thematic chapters on these key issues, including EU and NATO expansion, the historical base, the economic transition and its social ramifications, the role of women, persistent problems of ethnicity and nationalism, transitional justice, and post-transition gains and losses. New to this edition are chapters on social issues and transitional justice and a comprehensive discussion of the issues raised by the Euromaidan, the international response to it and Russia's intervention. For students and specialists alike, this book will be an invaluable resource on the politics and economics of Central and Eastern Europe, caught between the EU and a resurgent Russia.
