Editorial Review

Review

"Budgeting is the one area where future and/or new principals feel most insecure! Time and time again we hear our students say they feel like they don't know enough about handling the finances of their school. My students found The Principal's Guide to School Budgeting to be a very clear and practical resource that had information and instructive exercises to ease their anxiety about the task and help them with their jobs."

(Genie Bingham Linn, Associate Professor 2012-10-17)

"I wish I had had this book before I became a principal for the first time! Yes, we do want to manage funds wisely. But this book goes farther; it teaches new school leaders how to think creatively and it helps them utilize resources to bring about greater equity of learning for all students. They also clearly explain how to create inclusiveness so that all stakeholders become supporters of the school's plan for improvement." (Dr. Michael Fanning, Coordinator, M.S. in Educational Leadership 2012-10-18)
