Master the art of building successful reports and dashboards with this comprehensive guide

About This Book

- Visualize and create advanced level reports and dashboards using Salesforce.com
- Take advantage of creating reports and dashboards in the Salesforce mobile app, updated with Spring '15 release
- A concise and informative guide to solve all your reporting woes

Who This Book Is For

This book is intended for all Salesforce users?administrators, managers, business analysts, or report writers who are new to creating reports or dashboards within Salesforce. Basic knowledge of the Salesforce platform is required.

What You Will Learn

- Understand and create multiple types of reports and dashboards from scratch
- Assign permissions related to reports and dashboards
- Get to grips with the Salesforce data architecture and its relation to reports
- Get to know what a report folder is and how to use it
- Understand and create custom report types from scratch
- Use various components related to basic and advanced report configuration
- Discover best practices to build and share reports and dashboards
- Interface your dashboard to your mobile device app on the go

In Detail

Salesforce.com is the leading CRM platform. It offers cloud functionality even at the enterprise level. One of its most powerful features is the ability to build reports and dashboards without code and get a result in minutes. This feature is useful for multinational companies as well as small-scale ones.

Salesforce Reporting and Dashboards provides practical information for system administrators to understand, control, and manage permissions related to the report folder, report, and dashboard management. This book starts with an overview of the entire Salesforce technology and then moves on to the more

important topics of allocating permissions and choosing the correct reports to improve efficiency.

The book then explores reports?creation, editing, navigation, and deletion. You will also learn which report is essential to which type of users. The next topic introduced is the dashboard feature, its main uses, and functionality.

Editorial Review

About the Author

Johan Yu

Johan Yu has more than 17 years of experience working in the IT field across MNCs and leading Salesforce.com consulting companies across the Asia-Pacific region. Johan has worked on Salesforce technology for more than 10 years. He started his career with the Salesforce technology as a developer, team leader, technical manager, and consultant. He now enjoys working as global Salesforce.com system administrator and solution architect in an MNC. Based in Singapore, Johan holds multiple Salesforce certifications, including Administrator, Advanced Administrator, Sales Cloud Consultant, and Developer. In his spare time, he enjoys writing blogs related to Salesforce technology (<http://simplysfdc.blogspot.com>) and answering questions in the Salesforce success community. In May 2014, Johan became the first Salesforce MVP from Singapore and also the first in Southeast Asia. He is also a co-leader of the Salesforce Singapore user group and is keen to help members solve issues related to the Salesforce, such as implementation, adoption, and technical issues. You can connect with him on Twitter at @simplysfdc.

Users Review

From reader reviews:

Christine Frazier:

Have you spare time to get a day? What do you do when you have much more or little spare time? That's why, you can choose the suitable activity with regard to spend your time. Any person spent their very own spare time to take a go walking, shopping, or went to the Mall. How about open as well as read a book allowed Salesforce Reporting and Dashboards? Maybe it is to become best activity for you. You realize beside you can spend your time using your favorite's book, you can wiser than before. Do you agree with the opinion or you have different opinion?

Katherine Herron:

This Salesforce Reporting and Dashboards book is not ordinary book, you have it then the world is in your hands. The benefit you obtain by reading this book is information inside this e-book incredible fresh, you will get info which is getting deeper a person read a lot of information you will get. This Salesforce Reporting and Dashboards without we understand teach the one who reading through it become critical in thinking and analyzing. Don't always be worry Salesforce Reporting and Dashboards can bring once you are and not make your tote space or bookshelves' come to be full because you can have it inside your lovely laptop even cell phone. This Salesforce Reporting and Dashboards having great arrangement in word in addition to layout, so you will not truly feel uninterested in reading.

Daryl Steele:

That book can make you to feel relax. That book Salesforce Reporting and Dashboards was multi-colored and of course has pictures around. As we know that book Salesforce Reporting and Dashboards has many kinds or variety. Start from kids until adolescents. For example Naruto or Private investigator Conan you can read and feel that you are the character on there. So , not at all of book tend to be make you bored, any it makes you feel happy, fun and loosen up. Try to choose the best book to suit your needs and try to like reading that.

Mary Curtis:

As a pupil exactly feel bored to reading. If their teacher inquired them to go to the library or make summary for some e-book, they are complained. Just small students that has reading's spirit or real their hobby. They just do what the trainer want, like asked to the library. They go to at this time there but nothing reading significantly. Any students feel that looking at is not important, boring in addition to can't see colorful pictures on there. Yeah, it is being complicated. Book is very important for you personally. As we know that on this era, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. So , this Salesforce Reporting and Dashboards can make you feel more interested to read.
