## **Start the Serial that Spent Six Weeks on the Shifter Bestseller List by NY Times Bestselling Author V. M. Black**

### **Running for his life, he takes her along for the ride....**

Biker werewolf Levi Harris has a habit of going off half-cocked and getting into trouble. But this time, the trouble just might prove fatal. He's stolen a trove of information from a powerful vampire mafia network, and they won't rest until they get it back—and get revenge. His only chance of survival is to extract the information and put it to use before the bad guys catch up with him.

Curvy bombshell Harper Bailey is a good girl with a weak spot for bad boys. When Levi appears, she thinks her dreams have just rolled up on the back of a motorcycle. Little does she know that he's about to hijack her car and take her straight into the crossfire. But Levi himself might just prove the greatest danger of all....

### **From the Author**

I've loved wolves for more than twenty years, ever since reading a book on the white wolves of Ellesmere Island as a child, but at the same time, pack structure has always saddened me. Life seems great--for the alpha pair at the top! But for the other wolves, it seemed, well, limited and even repressive.

How thrilled was I, then, to learn that those researchers were wrong about how packs are formed and maintained! When I found out the truth, I was inspired. Never before had werewolf stories really caught my imagination, but with this new research, I was both excited and touched by the idea and wanted to

incorporate it into a werewolf society of my own.

(The details? Well, they'll come out in time, of course! Or, er, you can cheat and Google it and get a pretty good idea. But that will spoil the surprise.)
