**Step-By-Step Basic Statistics Using SAS: Student Guide and Exercises** By Larry Hatcher

The logical, easy-to-understand approach of this book set makes it indispensable to students in the behavioral and social sciences. *The Student Guide* first introduces you to SAS software, then leads you through a variety of elementary statistical analyses that are commonly used in the social and behavioral sciences. Even if you are new to statistics and computers, you soon will be recording research data, writing SAS programs, and interpreting the results. Exercises in the companion text enable you to apply what you learned in the Student Guide. Using the instruction provided, you soon will be creating data sets and performing statistical analyses to investigate specific research questions. The exercise data is inspired by studies in the social and behavioral sciences, so your analyses and findings mirror real research.
