Oral History Theory By Lynn Abrams

Oral history is increasingly acknowledged as a key tool for anyone studying the history of the recent past, and *Oral History Theory* provides a comprehensive, systematic and accessible overview of this important field. Combining the study of theories drawn from disciplines ranging from linguistics to psychoanalysis with the observations of practitioners and including extensive examples of oral history practice from around the world, this book constitutes the first integrated discussion of oral history theory.

Structured around key themes such as the peculiarities of oral history, the study of the self, subjectivity and intersubjectivity, memory, narrative, performance, power and trauma, each chapter provides a clear and user-friendly explanation of the various theoretical approaches, illustrating these with examples from the rich field of published oral history and making suggestions for the practicing oral historian. This second edition includes a new chapter on trauma and ethics, a preface discussing new developments in the field and updated glossary and further reading sections.

Supplemented by a new companion website (www.routledge.com/cw/abrams) containing a comprehensive range of case studies, audio material and further resources, this book will be invaluable to experienced and novice oral historians, professionals, and students who are new to the discipline.

Editorial Review

Users Review

From reader reviews:

Antonia Wagner:

What do you think of book? It is just for students because they are still students or this for all people in the world, exactly what the best subject for that? Simply you can be answered for that problem above. Every person has various personality and hobby for every single other. Don't to be pushed someone or something that they don't need do that. You must know how great and important the book Oral History Theory. All type of book could you see on many methods. You can look for the internet solutions or other social media.

Marcos Gorman:

Your reading sixth sense will not betray you actually, why because this Oral History Theory e-book written by well-known writer who knows well how to make book that could be understand by anyone who all read the book. Written in good manner for you, dripping every ideas and composing skill only for eliminate your own personal hunger then you still uncertainty Oral History Theory as good book not merely by the cover but also by the content. This is one reserve that can break don't evaluate book by its deal with, so do you still needing another sixth sense to pick this kind of!? Oh come on your reading sixth sense already said so why you have to listening to an additional sixth sense.

Gary Stark:

You could spend your free time to learn this book this book. This Oral History Theory is simple to deliver you can read it in the park, in the beach, train in addition to soon. If you did not have much space to bring often the printed book, you can buy typically the e-book. It is make you much easier to read it. You can save typically the book in your smart phone. Consequently there are a lot of benefits that you will get when one buys this book.

Phyllis Force:

Do you like reading a guide? Confuse to looking for your best book? Or your book had been rare? Why so many query for the book? But any kind of people feel that they enjoy regarding reading. Some people likes reading through, not only science book but in addition novel and Oral History Theory or maybe others sources were given knowledge for you. After you know how the truly great a book, you feel desire to read more and more. Science reserve was created for teacher or perhaps students especially. Those guides are helping them to increase their knowledge. In other case, beside science e-book, any other book likes Oral History Theory to make your spare time far more colorful. Many types of book like this one.
