From the Inside Flap

Corporate Management, Governance, and Ethics Best Practices

Best practices are the processes, practices, and systems identified in public and private organizations that performed exceptionally well and are widely recognized as improving an organization's performance and efficiency in specific areas. Successfully identifying and applying best practices can improve business processes and increase organizational effectiveness. Based on author S. Rao Vallabhaneni's decades of management experience, *Corporate Management, Governance, and Ethics Best Practices* provides a one-stop, comprehensive reference guide to the best-of-the-best practices for corporate business practitioners and government employees worldwide.

Because every company's resources and budget is different, *Corporate Management, Governance, and Ethics Best Practices* takes a "big picture" approach, allowing managers and executives to tailor each practice based on organization-specific resource availability as well as management strategies and priorities. Each self-contained chapter begins with an over-view of the topic, a presentation of management's roles and responsibilities, a discussion of core topics, and ends with applicable laws, rules, regulations, standards, and principles.

When implemented properly, these best practices help organizations:

- Increase product sales and service revenues
- Achieve cost, production, and service efficiencies
- Increase effective utilization of financial and nonfinancial resources
- Improve organizational, operational, technical, and financial performance
- Increase the quality of products and services in the marketplace
- Increase market share, profits, and returns
- Adhere to ethical principles and values and comply with all applicable laws, regulations, and standards
- Enjoy a competitive edge in the industry
- Enhance the firm's posture of social responsibility

Within this trove of proven winning strategies, best-in-class employees working for world-class organizations will find a wellspring of information to help them think differently, act radically, discover their own best-of-breed solutions, and implement best practices to prosper and grow their organizations' business continuously and successfully.
