Highly Commended at the BMA Medical Book Awards 2015

Mann's Pharmacovigilance is the definitive reference for the science of detection, assessment, understanding and prevention of the adverse effects of medicines, including vaccines and biologics.

Pharmacovigilance is increasingly important in improving drug safety for patients and reducing risk within the practice of pharmaceutical medicine. This new third edition covers the regulatory basis and the practice of pharmacovigilance and spontaneous adverse event reporting throughout the world. It examines signal detection and analysis, including the use of population-based databases and pharmacoepidemiological methodologies to proactively monitor for and assess safety signals. It includes chapters on drug safety practice in specific organ classes, special populations and special products, and new developments in the field.

From an international team of expert editors and contributors, *Mann's Pharmacovigilance* is a reference for everyone working within pharmaceutical companies, contract research organisations and medicine regulatory agencies, and for all researchers and students of pharmaceutical medicine.

The book has been renamed in honor of Professor Ronald Mann, whose vision and leadership brought the first two editions into being, and who dedicated his long career to improving the safety and safe use of medicines.

Editorial Review

Review

"I highly recommend this comprehensive reference for everyone who has any role in developing, delivering, or regulating drugs, or educating prescribers to administer these drugs to patients so that drug therapy can maximize efficacy in treating diseases while minimizing adverse events." (*Doody's*, 9 January 2015)

Users Review

From reader reviews:

Latosha Page:

Have you spare time to get a day? What do you do when you have far more or little spare time? Yep, you can choose the suitable activity for spend your time. Any person spent their own spare time to take a go walking, shopping, or went to the Mall. How about open as well as read a book allowed Mann's Pharmacovigilance? Maybe it is for being best activity for you. You know beside you can spend your time with your favorite's book, you can more intelligent than before. Do you agree with the opinion or you have additional opinion?

Jimmy Stone:

Nowadays reading books are more than want or need but also get a life style. This reading practice give you lot of advantages. Associate programs you got of course the knowledge the rest of the information inside the book in which improve your knowledge and information. The data you get based on what kind of guide you read, if you want attract knowledge just go with education books but if you want feel happy read one having theme for entertaining such as comic or novel. The Mann's Pharmacovigilance is kind of reserve which is giving the reader capricious experience.

Shirley Pedro:

A lot of people always spent their own free time to vacation or perhaps go to the outside with them family or their friend. Are you aware? Many a lot of people spent many people free time just watching TV, as well as playing video games all day long. In order to try to find a new activity this is look different you can read the book. It is really fun in your case. If you enjoy the book you read you can spent all day long to reading a reserve. The book Mann's Pharmacovigilance it is extremely good to read. There are a lot of individuals who recommended this book. These folks were enjoying reading this book. In the event you did not have enough space to deliver this book you can buy the actual e-book. You can more very easily to read this book from a smart phone. The price is not too expensive but this book provides high quality.

Richard McCormick:

Playing with family in a very park, coming to see the marine world or hanging out with close friends is thing that usually you will have done when you have spare time, after that why you don't try factor that really opposite from that. 1 activity that make you not sense tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of information. Even you love Mann's Pharmacovigilance, you may enjoy both. It is very good combination right, you still desire to miss it? What kind of hangout type is it? Oh seriously its mind hangout folks. What? Still don't get it, oh come on its named reading friends.
