Software Engineering & Quality Assurance By A.A.PUNTAMBEKAR

Software Product and Process S/W engineering paradigm - Verification - Validation - Life cycle models - System engineering - Computer based system - Business process engineering overview - Product engineering overview. Software Requirements Functional and non-functional - Software document - Requirement engineering process - Feasibility studies - Software prototyping - Prototyping in the software process - Data - Functional and behavioural models - Structured analysis and data dictionary. Analysis, Design Concepts and Principles Systems engineering - Analysis concepts - Design process and concepts - Modular design - Design heuristic - Architectural design - Data design - User interface design - Real time software design - System design - Real time executives - Data acquisition system - Monitoring and control system. Testing Taxonomy of software testing - Types of S/W test - Black box testing - Testing boundary conditions - Structural testing - Test coverage criteria based on data flow mechanisms - Regression testing - Unit testing - Integration testing - Validation testing - System testing and debugging - Software implementation techniques. Software Quality Assurance Process and product quality - Quality assurance and standards - Quality planning and control - Software metrics - Process improvement - Software configuration management.
