The Complete Project Management Methodology and Toolkit By Gerard M. Hill

In the past, an organization's technical methodologies were expected to fulfill project management process needs. However, they sometimes fell short of applying what is known today as "professional project management" concepts and practices. Written by one of the nation's most highly regarded project management mentors, **The Complete Project Management Methodology and Toolkit** delineates a "business-relevant" methodology that can be introduced across different industries and business environments.

The book describes the *ProjectPRISM™ Project Management Methodology*, an innovative, matrix-based approach to conducting project management that introduces relevant concepts, practices, and tools in an effective project management solution. Aligned with common business practices, Gerard Hill's method demonstrates how to develop project plans, keep on schedule, manage budgets, maintain areas of responsibility, and evaluate a project's progress from concept to completion. The text also offers insight for customizing the methodology to meet the unique needs of individual organizations.

Project management has emerged as a professional discipline and is coming into the mainstream just when it appears to be most needed in the business environment. Demonstrating that project management, in many ways, is business management, the author provides an exceptional foundation for creating a fine-tuned project management practice and a relevant business solution for every organization.

Editorial Review

Review

"... a rich collection of application tools that readers may readily reference and consider without extensive research and evaluation. ... enormously practical and highly useful book-one that offers much to many, one that provides a proven path to project success."

-- Kenneth H. Rose, PMP, Director, Peninsula Center for Project Management in Hampton, VA, USA, and winner of the 2006 PMI David I. Cleland Project Management Literature Award

About the Author

Principal, Hill Consulting Group, Woodbridge, Virginia, USA

Users Review
