**Astronaut Handbook** By Meghan McCarthy

DO YOU HAVE what it takes to be an astronaut? Meghan McCarthy blasts readers off to astronaut school in her new, young, nonfiction picture book. Take a ride on the “Vomit Comet” and learn how it feels to be weightless. Have your measurements taken—100 to be exact—for your very own space suit. Meghan McCarthy has created the perfect book to share with children who want to be astronauts when they grow up.

## Editorial Review

From School Library Journal

Kindergarten-Grade 3—McCarthy speaks directly to children who dream of someday "BLASTING into outer space," inviting them to experience astronaut school with four aspiring recruits. Painted in a cartoon style, the three men and one woman have large saucerlike eyes and off-center smiles. The book gives a very real picture of the arduous training required before going into space. Full-color spreads done in acrylics on gessoed paper show authentic facilities like a swimming pool, a jet, and the Vomit Comet (a plane ride that allows passengers to experience weightlessness). The text and illustrations are simply done, and their very sparseness highlights important stages in astronaut preparation. A space suit and toilet are shown against white backgrounds, and their parts are clearly labeled. The space-shuttle liftoff, painted vertically, and images of the smiling characters in space capture the excitement of this ultimate adventure. The author includes a page of fascinating facts as well as a list of places to visit. This appealing book is sure to find a wide audience.—*Mary Jean Smith, Southside Elementary School, Lebanon, TN*
