Tom Samson is a mid-level manager at one of the hottest online-dating companies around. He's vying for a promotion and he looks like he might get it, but there is only one that can get in the way: his insatiable sexual appetite.

Tom is constantly plagued by his wild imagination at work and the presence of his young, buxom coworker Tammy doesn't exactly help him focus. To alleviate his burning sexual appetite, he tries oriental massages and frequents the red-light district, but it never seems to be enough.

That is, until he finds Sam, the fembot engineered to satisfy his every sexual desire. Tom unleashes his sexual energy without reservation, dominating and using his new toy in ways not possible with a human woman, including mind-boggling flexibility and detachable body parts.

But Tom's problems are not over, however, when a mysterious third party seems to be putting a wedge between him and his new robotic lover.

Will Tom Samson ever find romantic and sexual satisfaction? Find out in *Detachable Robot: A Mind-Bending Sexual Experience*, the latest novel from Madison Black!

Tom froze up. What the hell just happened? He looked down at Sam. Her legs were still in pretzel formation, wrapped behind her neck, but her head, now 2 feet away from her body stared up at him, blinking.

Did he... did he kill her?

But then Sam made a small whirring sound as she reached her arms up, grabbed her head, and reattached it to her shoulders.

"What just happened?"

"My head fell off."

"Your... your head can fall off?"

"Yes. Especially when I am used so violently. But do not worry, Tom. Reattachment is a fairly simple process."

"Oh."
