Editorial Review

About the Author

David Kroenke has been a sailor since 1971 and currently owns a Mason 44. He has cruised the West Coast extensively, roamed the Inside Passage and the coast of British Columbia, and sailed to Mexico and back. His next Big Trip is a voyage to the Marquesas. Although he holds a Ph.D. in engineering, he claims his chief qualification for writing "Know Your Boat" is the self-education process he undertook after spending piles of money in boatyards.

Users Review

From reader reviews:

Leonard White:

Nowadays reading books are more than want or need but also become a life style. This reading behavior give you lot of advantages. The benefits you got of course the knowledge the actual information inside the book which improve your knowledge and information. The information you get based on what kind of e-book you read, if you want get more knowledge just go with education books but if you want experience happy read one together with theme for entertaining like comic or novel. The particular Processes, Systems, and Information: An Introduction to MIS is kind of guide which is giving the reader erratic experience.
