Measurement by the Physical Educator: Why and How (B&B Physical Education) By David Miller

The purpose of this text is to help the physical education, exercise science, or kinesiology major develop the necessary confidence and skills to conduct measurement techniques properly and effectively. However, more than just measurement techniques are presented. Emphasis is placed upon the reasons for the measurement and the responsibilities after measurement is completed. These inclusions should help the student develop an appreciation of the need for measurement in a variety of settings. In addition, every effort has been made to present all the material in an uncomplicated way, and only practical measurement techniques are included.

Instructors and students can now access their course content through the Connect digital learning platform by purchasing either standalone Connect access or a bundle of print and Connect access. McGraw-Hill Connect® is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following:

- SmartBook® - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content.
- Access to your instructor's homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course.
- Progress dashboards that quickly show how you are performing on your assignments and tips for improvement.
- The option to purchase (for a small fee) a print version of the book. This binder-ready, loose-leaf version includes free shipping.

Complete system requirements to use Connect can be found here:
