INTRODUCTION

This book basically deals with paranormal healing, not so much on its speculative aspect, but rather more on how and why. The approach in this book is simplified and mechanistic and, at the same time, spiritual. It is mechanistic in the sense that all that one has to do is to follow the instructions, step-by-step, and the predetermined results will follow. It is spiritual in the sense that, by praying or by invoking, one becomes a divine healing channel. This book teaches, within a week or two, how to heal simple ailments; and, within a month or two, how to heal difficult cases. One does not have to spend 10 to 20 years just to learn how to perform paranormal healing. Neither does one need any "special inborn healing power," nor be a clairvoyant, to heal. All that one needs is the willingness to heal, and to follow the instructions given in this book.

The author, at a very young age, was already very interested in yoga, psychic phenomena, mysticism, Chinese ki kung (the art of generating internal power) and other esoteric sciences. Because of his strong interest, he has spent more than 18 years researching and studying books and literatures on esoteric sciences. He has also made close association with yogis, healers, clairvoyants, practitioners of Chinese ki kung, and a few extraordinary persons who are in telepathic contact with their Spiritual Gurus. The author and his clairvoyant friends have spent several years experimenting, to determine the effectivity and the mechanisms of the healing techniques commonly known and used by healers, and students of esoteric sciences. This book is the distillation and synthesis of energy healing, minus the superstitious beliefs and practices. Some of the techniques have been revealed in books by other writers, or other healing practitioners, for quite some time; while some were "rediscovered" by the author. The more advanced techniques, that were privately taught to him, are now revealed in another book, entitled **ADVANCED PRANIC HEALING**. This will help uplift the suffering of humanity as a result of diseases. Many of the advanced healing techniques and concepts were taught to him by his Respected Teacher Mei Ling. The author is not a clairvoyant, nor was he born with any healing ability. If the author can learn how to heal effectively, then you can also!

The instructions in this book have been arranged in such a way that an ordinary person can easily, and gradually, learn how to perform paranormal healing. Instructions on how to paranormally diagnose a patient, without using clairvoyance, are also given.

The term "paranormal healing" may not be the proper description. What is considered paranormal healing, today, may become quite common and normal, a few decades from now. This is exactly the purpose of this book: to make paranormal healing quite common in the near future. The appropriate term should be pranic or ki healing, since life energy, or ki, is used in healing. This will give proper recognition to its ancient origin,

and to all esoteric students who have greatly contributed to its development.

It is very advantageous for everyone to learn pranic healing, especially parents; it is very fast and effective in treating simple and severe ailments, such as: headache, toothache, fever, sore throat, bumps, mumps, gas pan, arthritis, lung infection, heart problems, hearing problems and others.

An Advice to Students of Pranic Healing: When doing pranic healing, please open the book and carefully follow the instructions on how to treat a specific ailment, or disorder. Following the instructions, step by step, will ensure that the patient gets the proper pranic treatment. You will be amazed by the many cases of miraculous healing. Therefore, do not be embarrassed to heal with the book open. Simply explain to the patient that you want to heal him thoroughly.

Note: Pranic Healing is not intended to replace orthodox medicine, but rather to complement it. If symptoms persist or the ailment is severe, please immediately consult a medical doctor, and a certified pranic healer.
