Editorial Review

From [Booklist](#)

After deciding to challenge herself to move beyond her usual behind-the-scenes comfort zone, Vee gets involved in a reality-style online game, NERVE, which requires players to take on increasingly bizarre and personality-distorting dares. The audience, termed Watchers, votes and comments via text messages, and Vee becomes a sensation—and finds herself being stalked. Ryan has created a credible game, as well as a realistic character and narrator in Vee. She is less successful in weaving together credible plot threads. Vee seems to crush on every guy she meets, from “normal” classmate Matthew to NERVE partner Ian and even brilliant but recently dismissible Tommy, and while these four receive essential character development, Vee’s girlfriends remain mostly ciphers. Still, readers will likely remain tightly keyed into questions about what is going to happen to Vee herself, who is reminiscent of Eoin Colfer’s *Artemis Fowl*, translated into an American high-school girl. Grades 9-12. --Francisca Goldsmith

Review

Praise for *Nerve*:

“Teens will find themselves drawn in by the story’s possibilities, and unNERVED by its outcome. Give this to Suzanne Collins’s *Hunger Games* fans.” *School Library Journal*

"The commentary on today's life-as-public-spectacle society is sound. The pacing is relentless, and readers will find themselves flipping madly to the very last page." -*Kirkus Reviews*

"Readers will remain tightly keyed into questions about what is going to happen." -*Booklist*

“Ryan’s story is thought-provoking and unsettling...the ending goes off with a bang and a twist.” *Publishers Weekly*

"An original, page-turning novel that offers a slice of pop culture that gives a whole new meaning to the trendy, reality-television genre." -*VOYA*
