**Object-Oriented Data Structures Using Java** By Nell Dale, Daniel T. Joyce, Chip Weems

The updated and revised Object-Oriented Data Structures Using Java, Fourth Edition is an essential resource for students learning data structures using the Java programming language. It presents both the traditional and modern data structure topics with an emphasis on problem-solving and object-oriented software design. Beginning early and continuing throughout the text, it introduces and expands upon the use of many Java features such as classes, objects, generics, polymorphism, packages, interfaces, library classes, inheritance, exceptions, and threads.

## **Editorial Review**

### **Users Review**

#### **From reader reviews:**

##### **Michael Hill:**

Do you have favorite book? In case you have, what is your favorite's book? E-book is very important thing for us to understand everything in the world. Each publication has different aim or perhaps goal; it means that book has different type. Some people experience enjoy to spend their time for you to read a book. They are reading whatever they get because their hobby is actually reading a book. Think about the person who don't like studying a book? Sometime, person feel need book after they found difficult problem as well as exercise. Well, probably you'll have this Object-Oriented Data Structures Using Java.

##### **James Oliver:**

The book Object-Oriented Data Structures Using Java can give more knowledge and also the precise product information about everything you want. Why must we leave a very important thing like a book Object-Oriented Data Structures Using Java? Several of you have a different opinion about publication. But one aim which book can give many info for us. It is absolutely right. Right now, try to closer with your book. Knowledge or data that you take for that, it is possible to give for each other; you can share all of these. Book Object-Oriented Data Structures Using Java has simple shape but you know: it has great and big function for you. You can appearance the enormous world by open and read a publication. So it is very wonderful.

##### **Christina Ochs:**

Reading a reserve can be one of a lot of action that everyone in the world really likes. Do you like reading book thus. There are a lot of reasons why people enjoy it. First reading a e-book will give you a lot of new data. When you read a e-book you will get new information because book is one of several ways to share the information or even their idea. Second, examining a book will make a person more imaginative. When you looking at a book especially fictional works book the author will bring one to imagine the story how the personas do it anything. Third, you may share your knowledge to other individuals. When you read this Object-Oriented Data Structures Using Java, it is possible to tells your family, friends as well as soon about yours book. Your knowledge can inspire average, make them reading a reserve.

##### **Sandra Davis:**

Your reading sixth sense will not betray you actually, why because this Object-Oriented Data Structures Using Java publication written by well-known writer whose to say well how to make book that could be

understand by anyone who read the book. Written in good manner for you, still dripping wet every ideas and publishing skill only for eliminate your own hunger then you still skepticism Object-Oriented Data Structures Using Java as good book not just by the cover but also with the content. This is one book that can break don't evaluate book by its include, so do you still needing one more sixth sense to pick this!? Oh come on your studying sixth sense already told you so why you have to listening to one more sixth sense.
