
Handbook of Derivatization Reactions for HPLC

By George Lunn, Louise C. Hellwig

Handbook of Derivatization Reactions for HPLC By George Lunn, Louise C. Hellwig

Thousands of derivatization procedures for HPLC and CE-an essential tool for today's analytical chemist.

This valuable reference offers fast and convenient access to derivatization reactions for both HPLC and capillary electrophoresis (CE). Covering a wide variety of compounds from pharmaceutical drugs and biological products to industrial contaminants, it is organized first by functional group and then by individual reagents. Techniques for each functional group are described in sufficient detail that the researcher can replicate procedures without reference to the original publications-saving hours of tedious library research. And because detailed procedures for the same reagent are listed together, it is easy to combine features of different methods and tailor them to fit specific individual requirements.

Also available on CD-ROM, Handbook of Derivatization Reactions for HPLC contains fully abstracted and evaluated procedures from more than 1,900 papers, with descriptions of hundreds of reagents. A further 3,000 papers are referenced in bibliographies that are clearly annotated to help analysts identify those sources likely to be most useful.

This important new resource will be welcomed by chemists working in pharmaceutical, biomedical, and environmental analysis.

Also available on CD-ROM

System requirements . . .

IBM-compatible PC 486 or better and Windows(r) 3.0 or higher, or Macintosh 68030 processor and System 7 or higher
* CD-ROM drive and 8 MB RAM minimum
* 5 MB free hard disk space minimum, 30 MB recommended for full installation.

About the Author
GEORGE LUNN, PhD, a consultant and scientific writer, currently works for the Food and Drug Administration and is a former senior research scientist for Program Resources, Inc. at the NCI-Frederick Cancer Research and Development Center in Frederick, Maryland. He is the coauthor of Destruction of Hazardous Chemicals in the Laboratory and HPLC Methods for Pharmaceutical Analysis, both published by Wiley.

LOUISE C. HELLWIG, PhD, is a lecturer in the Chemistry Department of Morgan State University in Baltimore, Maryland. She holds degrees in chemistry and computer science from Swarthmore College, the University of Wisconsin, Madison, and Towson University.

Users Review

From reader reviews:

Micah Stahlman:

Have you spare time for the day? What do you do when you have a lot more or little spare time? That's why, you can choose the suitable activity regarding spend your time. Any person spent their particular spare time to take a go walking, shopping, or went to the actual Mall. How about open or maybe read a book titled Handbook of Derivatization Reactions for HPLC? Maybe it is for being best activity for you. You already know beside you can spend your time using your favorite's book, you can better than before. Do you agree with it has the opinion or you have some other opinion?

Toni Bays:

Information is provisions for people to get better life, information these days can get by anyone at everywhere. The information can be a knowledge or any news even restricted. What people must be consider when those information which is inside the former life are challenging be find than now's taking seriously which one is appropriate to believe or which one typically the resource are convinced. If you obtain the unstable resource then you obtain it as your main information it will have huge disadvantage for you. All of those possibilities will not happen inside you if you take Handbook of Derivatization Reactions for HPLC as your daily resource information.

Rudy Lapan:

Beside this particular Handbook of Derivatization Reactions for HPLC in your phone, it may give you a way to get nearer to the new knowledge or info. The information and the knowledge you can got here is fresh from the oven so don't be worry if you feel like an previous people live in narrow commune. It is good thing to have Handbook of Derivatization Reactions for HPLC because this book offers for your requirements readable information. Do you oftentimes have book but you rarely get what it's all about. Oh come on, that wil happen if you have this inside your hand. The Enjoyable blend here cannot be questionable, such as treasuring beautiful island. So do you still want to miss it? Find this book as well as read it from now!

Joseph Alderete:

You may get this Handbook of Derivatization Reactions for HPLC by look at the bookstore or Mall. Just viewing or reviewing it could to be your solve difficulty if you get difficulties for ones knowledge. Kinds of this book are various. Not only by simply written or printed and also can you enjoy this book by simply e-book. In the modern era including now, you just looking from your mobile phone and searching what your problem. Right now, choose your personal ways to get more information about your reserve. It is most important to arrange yourself to make your knowledge are still up-date. Let's try to choose right ways for you.
