Reflexive Methodology: New Vistas for Qualitative Research By Mats Alvesson, Kaj Sköldberg

Reflexive Methodology established itself as a groundbreaking success, providing researchers with an invaluable guide to a central problem in research methodology ? how to put field research and interpretations in perspective, paying attention to the interpretive, political, and rhetorical nature of empirical research. Now thoroughly updated, the **Second Edition** includes a new chapter on positivism, social constructionism, and critical realism, and offers new conclusions on the applications of methodology. It provides further illustrations and updates that build on the acclaimed and successful *First Edition*.

Editorial Review

Review

The quality coverage of theoretical and methodological approaches in previous chapters will give most researchers the tools to be able to attempt a reflexive interpretive process...There is a sense of richness, depth and argumentation that should satisfy most readers. Admirably, the narrative drive of the volume is never lost under the collective weight of the different approaches covered. The authors' argument that qualitative researchers should be open to recognising and utilising a multiplicity of approaches is compelling, and in their framework for reflexive interpretation, they offer a persuasive and largely usable tool for doing so.
