Manual of Natural Veterinary Medicine: Science and Tradition, 1e By Susan G. Wynn, Steve Marsden

This handy reference provides users with an understanding of complementary and alternative treatment options for more than 130 common disease states. A practical manual, it describes a variety of possible approaches to small animal disorders. Concentrating on nutrition, herbs, traditional Chinese medicines, and physical therapies, the authors present both tradition- and evidence-based therapies for disorders not always responsive to conventional therapies. Each monograph-style discussion of natural therapies for disorders common to specific body systems presents therapeutic rationales with the goals of treatment, alternative therapies with conventional bases, paradigmatic options, and authors' suggestions from which they've experienced success. Key references are also included at the conclusion of each chapter.

- Presents new and alternative therapies with scientific support, encouraging veterinarians explore new therapies with confidence.
- Helps veterinarians develop treatment plans - a vast improvement over large texts that simply introduce the therapies.
- Clearly explains esoteric concepts of traditional Chinese medicine in updated language.
- Practical, user-friendly pocket manual format allows for quick access in the clinical setting.
- Chapters are organized logically by body system and disorders are alphabetized within each chapter.
- Each body system chapter includes a case report that describes the history, physical examination, assessment, treatment, and outcome of a specific patient to further illustrate how to develop a treatment plan.
- Each appendix offers practical backup for designing treatment plans, from homemade diets and Chinese food therapy to oral herb doses and a valuable herb cross-reference table.

Users Review

From reader reviews:

Michael Riddle:

What do you consider book? It is just for students since they're still students or the idea for all people in the world, exactly what the best subject for that? Just simply you can be answered for that query above. Every person has different personality and hobby for every single other. Don't to be forced someone or something that they don't wish do that. You must know how great and important the book Manual of Natural Veterinary Medicine: Science and Tradition, 1e. All type of book are you able to see on many resources. You can look for the internet options or other social media.

Marcia Fullerton:

Here thing why this particular Manual of Natural Veterinary Medicine: Science and Tradition, 1e are different and reliable to be yours. First of all looking at a book is good nevertheless it depends in the content than it which is the content is as scrumptious as food or not. Manual of Natural Veterinary Medicine: Science and Tradition, 1e giving you information deeper and in different ways, you can find any reserve out there but there is no publication that similar with Manual of Natural Veterinary Medicine: Science and Tradition, 1e. It gives you thrill examining journey, its open up your own personal eyes about the thing in which happened in the world which is possibly can be happened around you. It is possible to bring everywhere like in playground, café, or even in your way home by train. In case you are having difficulties in bringing the printed book maybe the form of Manual of Natural Veterinary Medicine: Science and Tradition, 1e in e-book can be your choice.

Jim Moffett:

Information is provisions for people to get better life, information currently can get by anyone in everywhere. The information can be a knowledge or any news even a huge concern. What people must be consider whenever those information which is inside the former life are challenging to be find than now's taking seriously which one works to believe or which one typically the resource are convinced. If you receive the unstable resource then you have it as your main information you will have huge disadvantage for you. All those possibilities will not happen with you if you take Manual of Natural Veterinary Medicine: Science and Tradition, 1e as your daily resource information.

Dallas Richardson:

Playing with family in a very park, coming to see the coastal world or hanging out with friends is thing that usually you could have done when you have spare time, then why you don't try point that really opposite from that. 1 activity that make you not experience tired but still relaxing, trilling like on roller coaster you have been ride on and with addition details. Even you love Manual of Natural Veterinary Medicine: Science and Tradition, 1e, you could enjoy both. It is good combination right, you still would like to miss it? What kind of hang-out type is it? Oh seriously its mind hangout people. What? Still don't obtain it, oh come on its referred to as reading friends.
