Review

Hi Howard,

Thank you so much! I am really enjoying Mean Reversion Trading Systems and Quantitative Trading Systems, and am reading, studying, and applying it every night after work. I know it will take time, but your books make the road easier. I'm so glad you wrote this new book as well.

In fact, your work is the main reason I've been able to create and test a handful of trading systems so far, and I truly appreciate what you have done. Not just for me, but for any lay-person who like me has a new life skill thanks to you.

--David

Dear Howard,

This year I got some books from you and it surprises me every day to find new things in it. Today I read something about optimization and backtesting. My head is about to burst, but I think you got it, so it must be possible for others...

Thank you for your books!

I wish you and your family merry Christmas and keep the fire burning.

best regards from Bavaria, --Peter

Fantastic books. Really precise on the definitions and biases. I do like maths and stats, so I think your books are superb. I have to thank my friend though, as he recommended them to me.
