The Demonata #8: Wolf Island By Darren Shan

As the mysterious Shadow builds an army of demons, Grubbs Grady and his team search desperately for answers. But when they follow up a new lead, it takes them to an old, unexpected foe - the Lambs.

"We spot the werewolves as we skim the treetops. Mutated, vicious, hairy monstrosities, all fangs, claws and muscles. The beast within me tries to force its way to the surface, howling silently at its warped brethren. I've never rid myself of the wolf..."

Editorial Review

From School Library Journal

Grade 7–10—Grubbs Grady, his magical mentor Beranabus, and their ally Kernel-all featured in previous volumes—battle their way through the alternate worlds of demons and other creepy creatures. They kill all the demons they can while hoping to learn more about the monstrous power that propels the demon forces to slaughter humanity. The teenager Grubbs, as readers know from earlier installments, carries a family curse that could turn him into a werewolf, and it takes all of his magical talents to keep that curse at bay. If that happens, he will be hunted down and killed by a group called the Lambs. When fellow demon-fighters Meera and Shark appear through a window from the human world, they ask for help. Grubbs's beloved Uncle Dervish has been attacked by werewolves and is near death, and the Lambs may have allied with Lord Loss, the series' main villain. Grubbs and the other demon fighters learn that things are worse than they thought (in the "Demonata" books, they always are)—the Lambs are now breeding werewolves at Wolf Island, a remote lab and fortress. Like all of the books in this series, *Wolf Island* is not for the squeamish; blood and death are gruesome constants and triumphs are only temporary.—*Walter Minkel, Austin Public Library, TX* END
