Absolutism and Society in Seventeenth-Century France: State Power and Provincial Aristocracy in Languedoc (Cambridge Studies in Early Modern History) By William Beik

Why was Louis XIV successful in pacifying the same aristocrats who had been troublesome for Richelieu and Mazarin? What role did absolutism play in reinforcing or changing the traditional social system in seventeenth-century France? This analysis of the provincial reality of absolutism argues that the answers to these questions lie in the relationship between the regional aristocracy and the crown. Starting with a critical examination of current approaches to state and society by institutional, social "Annales," and Marxist historians, the author calls for a new class analysis based on the findings of all these schools.

Editorial Review

Review

"...one of the outstanding works on early modern France produced in the last decade...It will be a most influential work, one with which all scholars of the period should be familiar." *American Historical Review*

"...a tour de force...The erudition, probing questions, and subtlety of this study will assure its place among the outstanding works published by an American in French history." *Renaissance Quarterly*

"This well-written work carries considerable potential for use in the classroom. While it is a sophisticated piece of scholarship, it will also demonstrate for students the complexities of absolutism in the 17th and early 18th centuries." *Nicholas Rowe, H-Net Reviews*

Users Review

From reader reviews:
