Editorial Review

From the Author

What has made this play so popular over the years is the improvisational element. The audience gets to name the Dwarves prior to the performance and the actors must then play their parts according to that name. It's a different show every night!

This is a really simple play to stage, and has been produced by many school groups and community Theatres.

The cast size for this play is 12, but if you are looking for something larger, SNOW WHITE AND THE 47 DWARVES is the same play, with roles for up to 70 performers. It is also available right here on Amazon.
