Varieties of Applied Research. Evaluation Research. the Politics of Applied and Evaluation Research. Can We Afford Not to Do Applied Research? Summary. 15. Observational Archival Research. Naturalness in Research. Observation. Archival Research. Summary. 16. Qualitative Research. Narrative Analysis. Focus Groups. Oral History. Participant. Summary. PART V: ANALYSIS AND WRITING. 17. Data Management and Exploration. The Data Matrix. The Codebook. Statistical Software. Exploring Data. Summary. 18. Estimates and Tests of Association. Associations Between Dichotomous Variables. Inferring Associations in Populations from Sample Data. Associations Between Continuous Variables. Associations Between a Continuous Variable and a Dichotomous Variable. Interpreting Associations. Partial Associations. Summary. 19. Reviewing Research Reports and Literatures. Reviewing Research Reports. Searching the Literature. Reviewing the Literature. Reviewing the Literature ? ?Traditionally? and Meta-Analytically. Basic Meta-Analytic Tests: combing and Comparing Studies. Summary. 20. Writing the Research Report. Some Preliminary Considerations. Introduction. Method. Results. Discussion. Summary or Abstract. References. Appendix. Some Suggestions on Procedure and Style. Where to Find Additional Guidance. Summary. Bibliography. Author Index. Subject Index.

### About the Author

Rick Hoyle received Ph.D in Psychology from the University of North Carolina at Chapel Hill and is currently a Research Professor at Duke University for the department of Psychology. Rick's areas of research interest include the foundations of self-esteem, the role of personality in problem behavior, and strategic applications of structural equation modeling, and related techniques for the purpose of modeling complex processes that unfold over time.

Monica Harris received her Ph.D. from Harvard University and went directly from Harvard to a faculty position at the University of Kentucky. Monica's research interests fall into three overlapping categories: interpersonal expectancy effects, meta-analysis and other methodological issues, and teasing and peer victimization.

Charles Judd received his Ph.D from Columbia University and is currently a professor at the University of Colorado-Boulder. His areas of research interest include social cognition and attitudes, and research methods and analysis.

### Users Review

#### From reader reviews:

##### Betty Adkins:
