Editorial Review

From [Booklist](#)

From the seasoned perspective of her eighty-nine years, Agathe, the eldest von Trapp family daughter paints a rose-hued portrait of life before and after the highly fictionalized Broadway and Hollywood account of her famous family's story. Though diehard Sound of Music fans may be disappointed to learn that the von Trapps' "escape" from Austria—they simply boarded a train to Italy—was much less dramatic than the memorable Technicolor climb over the mountains depicted in the movie, their hearts will still be blessed with the sound of music that resonates throughout the pages of this charming, family-friendly memoir. Agathe dishes no dirt; in fact, her recollections of her beloved Mamá, Papá, stepmother, and fairy-tale-like childhood in Austria, are all refreshingly positive and upbeat. A gentle patriarch, unlike the strict disciplinarian portrayed in both the stage and film versions, Georg von Trapp, oversaw the musical education of all his children after the death of his first wife. After immigrating to the U.S. and embarking on their collective musical career as the Trapp Family Singers, the close-knit bonds forged in their Tyrolean childhoods never frayed. Though less fantastical, Agathe's homespun recollections, illustrated with her own sketches and family photos, is a must-read for diehard Sound of Music fans. Sugar-sweet but never saccharine. --Margaret Flanagan
