**A Guide to Ship Repair Estimates in Man Hours** By Don Butler DTI Combined first class Engineers Certificate of competency for steam ships and motor ships. Chartered Engineer (C. Eng) Fellow of the Institute of Marine Engineers (F.I.Mar.E) Member of Society of Consulting Marine Engineers (M.C.M.S)

Don Butler has compiled an invaluable list of the man-hours required for ship repair estimates. All ships must undergo regular dry-docking for examination by a third party surveyor; this is a mandatory requirement for ships which ply their trade on either world wide or coastal area basis. This dry-docking period is usually used as a time to carry out known damage repairs, cleaning and painting, upgrades and regular machinery overhauls. The author provides estimates for all situations which may arise, enabling the repair superintendent to anticipate costs, and therefore to prepare an accurate repair specification well in advance, for issue to the repairer.

Don Butler has gathered the information in this book over more than twenty years in the repair field. He is a holder of the DTI Combined first class Engineers Certificate of competency for steam and motor ships and a Fellow of the Institute of Marine Engineers (F.I.Mar.E). He is also a Member of the Society of Consulting Marine Engineers and Ship Surveyors (M.C.M.S).

- Produced for technical superintendents of ship owners and ship managers; outlines the manner in which ship repair companies compile quotations.
- Made up of man-hours rather than monetary value, to assist long-term pricing; books of 'prices only' will have no long-term relevance, whereas time in man-hours will be universally applicable and more durable.

## **Editorial Review**

### **Review**

'This is an invaluable and rare little reference book written for those involved with costing ship repairs. It is rare for providing an independent means by which repairs can be estimated without resorting to tariff rates published by individual shipyards. Invaluable because it is a very practical book containing only information necessary to fulfil the objective of obtaining a useful estimate.... The format is simple. Information of the repairs is stated briefly. A table is then provided of the estimated manhours required for a particular job.... This book will be a valuable tool for those involved with ship repair. Those who would benefit in particular are superintendents and ship repair yards.'

Marine Engineers Review, March 2002

'By referencing man hours rather than monetary value, the book is universally applicable and will be of extended long-term relevance. It will assist technical superintendents in compiling repair specifications with a pricing strategy, so they can build up costings for their planned repair periods... The author provides estimates for all situations which may arise, enabling the repair superintendent to anticipate costs and therefore to prepare an accurate repair specification well in advance to be issued to the repairer.'

Maritime Journal, Feb. 2002

### **About the Author**

Don Butler is a fellow of the Institute of Marine Engineers and a member of Society of Consulting Marine Engineers and Ship Surveyors, UK.

## **Users Review**

### **From reader reviews:**

#### **Carol Shull:**

The book A Guide to Ship Repair Estimates in Man Hours make you feel enjoy for your spare time. You need to use to make your capable more increase. Book can to be your best friend when you getting stress or having big problem using your subject. If you can make reading a book A Guide to Ship Repair Estimates in Man Hours to be your habit, you can get a lot more advantages, like add your current capable, increase your knowledge about several or all subjects. It is possible to know everything if you like open and read a e-book A Guide to Ship Repair Estimates in Man Hours. Kinds of book are several. It means that, science guide or encyclopedia or other people. So , how do you think about this reserve?

#### **Lynne Silva:**

Book is to be different for each grade. Book for children right up until adult are different content. As we know that book is very important for people. The book A Guide to Ship Repair Estimates in Man Hours was making you to know about other understanding and of course you can take more information. It doesn't matter what advantages for you. The book A Guide to Ship Repair Estimates in Man Hours is not only

giving you much more new information but also to be your friend when you truly feel bored. You can spend your personal spend time to read your guide. Try to make relationship with all the book A Guide to Ship Repair Estimates in Man Hours. You never truly feel lose out for everything when you read some books.

**Donna Hufnagel:**

Your reading sixth sense will not betray you, why because this A Guide to Ship Repair Estimates in Man Hours book written by well-known writer whose to say well how to make book that could be understand by anyone who read the book. Written throughout good manner for you, still dripping wet every ideas and publishing skill only for eliminate your current hunger then you still hesitation A Guide to Ship Repair Estimates in Man Hours as good book not just by the cover but also by the content. This is one publication that can break don't assess book by its include, so do you still needing one more sixth sense to pick this!? Oh come on your looking at sixth sense already told you so why you have to listening to an additional sixth sense.

**Larry Morris:**

Do you like reading a reserve? Confuse to looking for your preferred book? Or your book had been rare? Why so many query for the book? But any kind of people feel that they enjoy to get reading. Some people likes reading, not only science book and also novel and A Guide to Ship Repair Estimates in Man Hours or others sources were given expertise for you. After you know how the fantastic a book, you feel need to read more and more. Science e-book was created for teacher or even students especially. Those guides are helping them to bring their knowledge. In some other case, beside science e-book, any other book likes A Guide to Ship Repair Estimates in Man Hours to make your spare time considerably more colorful. Many types of book like this one.
