Ten Key Formula Families in Chinese Medicine By Huang Huang, Translated by Michael Max

Ten Key Formula Families in Chinese Medicine provides a practical path to a deeper understanding of traditional Chinese herbal formulas. Dr. Huang discusses the core aspects of the ten most important families of formulas in the classical formula tradition in a way that is both profound and accessible. By introducing the concept of constitutions and the attendant vulnerabilities of those constitutions to certain types of disorders, he hands the reader a very useful key to understanding how and when to use these formulas in the clinic. The ten families of formulas are grouped around the following herbs:

Cinnamon - Cinnamomi Ramulus

Ephedra - Ephedrae Herba

Bupleurum - Bupleuri Radix

Gypsum - Gypsum fibrosum

Rhubarb - Rhei Radix et Rhizoma

Coptis - Coptidis Rhizoma

Aconite accessory root - Aconiti Radix lateralis preparata

Dried ginger - Zingiberis Rhizoma

Astragalus - Astragali Radix

Pinellia - Pinelliae Rhizoma preparatum

For each family of formulas, Dr. Huang describes the associated presentation and constitutional aspects common to all members of the family, then turns to the individual formulas that are especially useful for treating particular aspects of that presentation. The discussion is embellished with case histories and relevant clinical research.

Editorial Review

About the Author

Huang Huang is a professor at the Nanjing University of Traditional Chinese Medicine. A prolific writer and editor, he has studied and worked in Japan, lectured widely throughout China, and recently in the United States and Australia as well. His work challenges practitioners to dig deeper into the treasure trove of classical Chinese medicine and apply its methods in the modern clinic.

Michael Max is a graduate of the Seattle Institute of Oriental Medicine. He studied Chinese language and medicine in Taiwan and on the mainland for over five years, and currently operates the Yong Kang Chinese Medicine clinic in St. Louis, Missouri where he maintains an active practice.

Users Review

From reader reviews:

Doris Griffin:

Book will be written, printed, or outlined for everything. You can recognize everything you want by a e-book. Book has a different type.
