**Pharmacology for Nurses: A Pathophysiologic Approach (5th Edition)** By Michael Patrick Adams, Norman Holland, Carol Urban

*For pharmacology courses in nursing programs*

## Help students think like nurses and understand how pharmacology relates to patient care

When drugs are learned in isolation from their associated diseases, students have difficulty connecting pharmacotherapy, pathophysiology, and nursing care.

***Pharmacology for Nurses: A Pathophysiologic Approach, Fifth Edition***, helps students master pharmacology by tightly linking it to therapeutic goals and patient wellness. Organized by body systems and diseases, it places drugs in context with how they are used therapeutically. Students can then easily locate relevant anatomy, physiology, pathology, and pharmacology in the same chapter. Nursing Process Application features clearly relate pharmacology to key nursing processes. Features highlighting complementary therapies, community-oriented and evidence-based practices, and lifespan considerations help students make connections to nursing practice. To give readers a clear picture of the holistic nature of pharmacology, the **Fifth Edition** reflects current pharmacotherapeutics and advances in understanding disease.

## Also available with MyNursingLab®

MyNursingLab is an online homework, tutorial, and assessment program designed to engage students in the Pharmacology course and improve results. Its guided learning path is proven to help students think like a nurse as they move beyond memorization to true understanding through application.

**NOTE:** You are purchasing a standalone product; MyNursingLab does not come packaged with the content. If you would like to purchase both the physical text and MyNursingLab, search for ISBN:0134460057 / 9780134460055

*Pharmacology for Nurses: A Pathophysiologic Approach* Plus MyNursingLab with Pearson eText -- Access Card Package, 5/e. That package consists of:

- 013425516X / 9780134255163 *Pharmacology for Nurses: A Pathophysiologic Approach*, 5/e
- 0134449010 / 9780134449012 MyNursingLab with Pearson eText -- Access Card -- for *Pharmacology for Nurses: A Pathophysiologic Approach*

### Editorial Review

#### About the Author

**Michael Patrick Adams, PhD**, is an accomplished educator, author, and national speaker. The National Institute for Staff and Organizational Development in Austin, Texas, named Dr. Adams a Master Teacher. He has published two other textbooks with Pearson: *Core Concepts in Pharmacology* and *Pharmacology: Connections to Nursing Practice*.

Dr. Adams obtained his master's degree in pharmacology from Michigan State University and his doctorate in education from the University of South Florida. Dr. Adams was on the faculty of Lansing Community College and St. Petersburg College, and served as Dean of Health Professions at Pasco-Hernando State College for 15 years. He is currently Professor of Biological Sciences at Pasco-Hernandez State College and Hillsborough Community College.

**Leland Norman Holland, Jr., PhD (Norm)**, over 20 years ago, started out like many scientists, planning for a career in basic science research. He was quickly drawn to the field of teaching in higher medical education, where he has spent most of his career. Among the areas where he has been particularly effective are preparatory programs in nursing, medicine, dentistry, pharmacy, and allied health. Dr. Holland is both a professor and supporter in nursing education nationwide. He brings to the profession a depth of knowledge in biology, chemistry, and medically related subjects such as microbiology, biological chemistry, and pharmacology. Dr. Holland's doctoral degree is in medical pharmacology. He is very much dedicated to the success of students and their preparation for careers in health care. He continues to motivate students in the lifelong pursuit of learning.

**Carol Quam Urban, PhD, RN, Associate Professor**, is the Director of the School of Nursing, and an Associate Dean in the College of Health and Human Services, at George Mason University in Fairfax, Virginia. She has been on the faculty at Mason and considers the study of pharmacology to be a course that truly integrates nursing knowledge, skills, and interdisciplinary teamwork. She credits her students, past and present, for providing a never-ending source of real-world stories that make learning about pharmacology enjoyable in class. She has published the Pearson textbook, *Pharmacology: Connections to Nursing Practice* with Dr. Adams.

### Users Review

#### From reader reviews:

#### Katie Phillips:

Book is actually written, printed, or highlighted for everything. You can understand everything you want by a book. Book has a different type. As it is known to us that book is important issue to bring us around the world. Beside that you can your reading skill was fluently. A e-book Pharmacology for Nurses: A Pathophysiologic Approach (5th Edition) will make you to become smarter. You can feel more confidence if you can know about everything. But some of you think in which open or reading some sort of book make you bored. It is not necessarily make you fun. Why they can be thought like that? Have you in search of best

book or appropriate book with you?

**Marianne Guzman:**

What do you concerning book? It is not important to you? Or just adding material if you want something to explain what yours problem? How about your extra time? Or are you busy man? If you don't have spare time to do others business, it is make you feel bored faster. And you have spare time? What did you do? Everyone has many questions above. They have to answer that question mainly because just their can do this. It said that about book. Book is familiar in each person. Yes, it is suitable. Because start from on pre-school until university need this kind of Pharmacology for Nurses: A Pathophysiologic Approach (5th Edition) to read.

**Jordan Miller:**

Reading can called mind hangout, why? Because when you find yourself reading a book specifically book entitled Pharmacology for Nurses: A Pathophysiologic Approach (5th Edition) your thoughts will drift away trough every dimension, wandering in every aspect that maybe unidentified for but surely will become your mind friends. Imaging just about every word written in a book then become one web form conclusion and explanation this maybe you never get prior to. The Pharmacology for Nurses: A Pathophysiologic Approach (5th Edition) giving you a different experience more than blown away your brain but also giving you useful info for your better life on this era. So now let us show you the relaxing pattern here is your body and mind are going to be pleased when you are finished reading through it, like winning a game. Do you want to try this extraordinary paying spare time activity?

**Robert Araiza:**

Are you kind of busy person, only have 10 or 15 minute in your day time to upgrading your mind skill or thinking skill perhaps analytical thinking? Then you are receiving problem with the book when compared with can satisfy your short time to read it because all this time you only find guide that need more time to be read.
