The Care and Feeding of Indigo Children By Doreen Virtue

Indigo children are bright, intuitive, strong-willed, sometimes self-destructive individuals. They are often labelled - and misdiagnosed - as having Add or Adhd because they won't comply with established rules and patterns; and they may exhibit behavioural problems at home and in school. In this text, Doreen Virtue explores the psyche of these special children, aiming to positively affect the ways in which parents interact with their children.
