Gr. 6-9. In the latest in the Warriors: The New Prophecy series, the six cats, four of whom have been chosen by the StarClan to save the clans, discover the "midnight" that they are "to listen to" is actually a badger named Midnight. The animal reveals the StarClan's warnings and sets the six on a path through the mountains to return to the clans. Once in the mountains, the companions encounter a tribe of cats with its own way of doing things and a mysterious prophesy. Told in alternating narratives, the story follows the intrepid questers and the plight of the clans as the "Twolegs" make incursions into the forest. The danger intensifies as does a sense of possible doom. The conclusion is a cliffhanger that will leave readers eager for the next installment. *Sally Estes*
