**Essentials of Neuropsychiatry and Behavioral Neurosciences** By Stuart C. Yudofsky, Robert E. Hales

This new edition of the *Essentials of Neuropsychiatry and Behavioral Neurosciences* reflects the significant revisions in the 5th edition of *The American Psychiatric Publishing Textbook of Neuropsychiatry and Behavioral Neurosciences*, published in 2008. Like its predecessor, this volume distills the critical information presented in exhaustive detail in the Textbook to create an accessible, comprehensible, and portable resource for front-line clinicians and psychiatry and neurology residents preparing for the formidable American Board of Psychiatry and Neurology certification examination. Abridged, yet undiminished in its utility, the book functions as a subspecialty reference that details assessment techniques and the full range of treatment options for patients with neuropsychiatric disorders. A concise opening chapter on Fundamentals of Cellular Neurobiology provides the reader with the scientific framework necessary to understand fully and contextualize the chapters on specific disorders and treatments that follow. *Essentials of Neuropsychiatry and Behavioral Neurosciences* is an efficient yet comprehensive learning tool for both the basics and the advanced techniques on the leading edge of this swiftly expanding field.
