Editorial Review

Review

"The illustrations are by Keith Sykes and they are so good I just wish there had been more of them... A must to be read by stalker and non-stalker... While this book may have been written with the stalker in mind, it goes much further and will appeal to the general naturalist. You could have left out the word "Stalker's" in the title and it would have been better still. From antlers to "A Macnab" and venison to myths, this is a must for your bookshelf." Ray Collier, Highland News Group
