Theological Essays By Eberhard Jüngel

Eberhard Jüngel is widely recognised as one of the most important and original theologians of the twentieth-century. Although his essays comprise some of his best critical and constructive writing, few have been available in English. These eight essays have been carefully chosen to illustrate the wide range of Jüngel's current concerns - the ontological implications of the doctrine of justification, the nature of metaphorical and anthropomorphic language, theological anthropology, Christology and ecclesiology, and natural theology.
