The Mysteries of Marseille By Emile Zola

"The Mysteries Marseille" recounts the love of Philippe Cayol, poor, untitled, republican, and of young Blanche de Cazalis, the niece of De Cazalis, a millionaire, politician and all-powerful in Marseille. Philippe's brother, Marius, devotes himself to protecting the two lovers - and the child Blanche gave birth to before entering a convent - from the anger of De Cazalis. --- "The Mysteries of Marseille" appeared as a serialized story in "Le Messenger de Provence" in 1867, while Zola was writing "Therese Raquin". As a work of his youth, it was thus also a commissioned work on which Zola "cut his teeth." In it, he himself saw the "amount of will and work" that he had to expend to elevate himself to "the literary effort of the Rougon-Macquart novels." --- Indeed, in this popular novel, typical of the genre in its various and unexpected twists and turns, we can already see his style, his palate for real life, his indignation about injustice, and his art of depicting social strata (the wealthy, the clergy, the deviants, the common man) as well as events (the revolution of 1848, the cholera epidemic). With this canvas as a background, he has painted a breathtaking adventure, the thrilling story of an impossible love, that resembles the love of liberty.
