Logic, Semantics, Metamathematics: Papers from 1923 to 1938 By Alfred Tarski

Get Print Book

Published with the aid of a grant from the National Endowment for the Humanities.

Contains the only complete English-language text of *The Concept of Truth in Formalized Languages*. Tarski made extensive corrections and revisions of the original translations for this edition, along with new historical remarks. It includes a new preface and a new analytical index for use by philosophers and linguists as well as by historians of mathematics and philosophy.

Editorial Review

Review

I can think of no better publishing project in the general area of logic and the foundations of mathematics than the republication and appropriate corrections under Tarski's supervision of this classic volume. -
?Patrick Suppes, Stanford University

A mere reprinting of the volume would be a service, but the present project promises a much greater service. The historical significance of the papers can now be assessed in the perspective of the twenty-six productive years that have elapsed since the first printing of the volume, and the much longer interval?fifty years, on the average?since publication of the component papers. Concepts can be instructively glossed, renamed, and reinterpreted in the light of later literature. Corrections can be made, also, that were urgently wanted already in the first printing, to which Tarski had insufficient access when it was being prepared. Under the expert editing by John Corcoran in consultation with Tarski, a volume can be counted on that will constitute a definitive record and appraisal of Tarski's monumental early contributions to the burgeoning domain of mathematical logic and its philosophy. -?W. V. Quine, Harvard University

Users Review

From reader reviews:

Erin Marshall:

Exactly why? Because this Logic, Semantics, Metamathematics: Papers from 1923 to 1938 is an unordinary book that the inside of the e-book waiting for you to snap this but latter it will zap you with the secret it inside. Reading this book close to it was fantastic author who also write the book in such incredible way makes the content inside of easier to understand, entertaining method but still convey the meaning fully. So , it is good for you for not hesitating having this ever again or you going to regret it. This phenomenal book will give you a lot of gains than the other book possess such as help improving your talent and your critical thinking technique. So , still want to delay having that book? If I had been you I will go to the publication store hurriedly.

Holly Murphy:

Do you have something that you enjoy such as book? The book lovers usually prefer to decide on book like comic, brief story and the biggest you are novel. Now, why not attempting Logic, Semantics,

Metamathematics: Papers from 1923 to 1938 that give your satisfaction preference will be satisfied through reading this book. Reading habit all over the world can be said as the means for people to know world considerably better than how they react to the world. It can't be mentioned constantly that reading addiction only for the geeky particular person but for all of you who wants to always be success person. So , for all of you who want to start examining as your good habit, you may pick Logic, Semantics, Metamathematics: Papers from 1923 to 1938 become your current starter.

Sonia Cancel:

The book untitled Logic, Semantics, Metamathematics: Papers from 1923 to 1938 contain a lot of information on the idea. The writer explains your girlfriend idea with easy method. The language is very clear to see all the people, so do not necessarily worry, you can easy to read the idea. The book was authored by famous author. The author will bring you in the new time of literary works. You can easily read this book because you can keep reading your smart phone, or device, so you can read the book throughout anywhere and anytime. If you want to buy the e-book, you can open their official web-site and order it. Have a nice examine.

Andrea Quirk:

Reading a publication make you to get more knowledge from that. You can take knowledge and information from a book. Book is composed or printed or highlighted from each source that will filled update of news. Within this modern era like currently, many ways to get information are available for you actually. From media social just like newspaper, magazines, science publication, encyclopedia, reference book, story and comic. You can add your knowledge by that book. Are you hip to spend your spare time to open your book? Or just searching for the Logic, Semantics, Metamathematics: Papers from 1923 to 1938 when you required it?
