The Netter Collection of Medical Illustrations: Nervous System, Volume 7, Part II - Spinal Cord and Peripheral Motor and Sensory Systems, 2e (Netter Green Book Collection) By H. Royden Jones Jr. Jr., Ted Burns, Michael J. Aminoff, Scott Pomeroy

Spinal Cord and Peripheral Motor and Sensory Systems, Part 2 of *The Netter Collection of Medical Illustrations: Nervous System, 2nd Edition*, provides a **highly visual overview** of the anatomy, pathology, and major clinical syndromes of the nervous system, from cranial nerves and neuro-ophthalmology to spinal cord, neuropathies, autonomic nervous system, pain physiology, and neuromuscular disorders. This spectacularly illustrated volume in the masterwork known as the (CIBA) Netter "Green Books" has been expanded and revised by Drs. H. Royden Jones, Jr., Ted M. Burns, Michael J. Aminoff, Scott L. Pomeroy to mirror the many exciting advances in neurologic medicine - offering **rich insights** into neuroanatomy, neurophysiology, molecular biology, pathology, and various clinical presentations.

"Netter's has always set the Rolls-Royce standard in understanding of clinical anatomy and pathophysiology of disease process, particularly of nervous system. Over 290 pages and with the use of sharp, concise text, illustrations and correlation with up to date imaging techniques, including spinal cord and cranial and peripheral nerve disorders. It is well worth a read." **Reviewed by:** Dr Manesh Bhojak, Consultant Neuroradiologist, Liverpool **Date:** July 2014

- **Get complete, integrated visual guidance on the cranial nerves, spinal cord and peripheral motor and sensory systems** with thorough, richly illustrated coverage.
- **Quickly understand complex topics** thanks to a concise text-atlas format that provides a context bridge between primary and specialized medicine.
- **Clearly visualize** how core concepts of anatomy, physiology, and other basic sciences correlate across disciplines.
- **Benefit from matchless Netter illustrations** that offer precision, clarity, detail and realism as they provide a visual approach to the clinical presentation and care of the patient.
- **Gain a rich clinical view of all aspects of the cranial nerves, spinal cord and peripheral motor sensory systems** in one comprehensive volume,

conveyed through beautiful illustrations as well as up-to-date neuro-radiologic images.

- **Clearly see the connection between basic science and clinical practice** with an integrated overview of normal structure and function as it relates to neuro-pathologic conditions.
- **Grasp current clinical concepts** regarding the many aspects of adult and child neurologic medicine captured in classic Netter illustrations, as well as new illustrations created specifically for this volume by artist-physician Carlos Machado, MD, and others working in the Netter style.

About the Author

Dr. H. Royden Jones was Chair of the Department of Neurology at Lahey Hospital and Medical Center, Burlington, Massachusetts; Director of the Electromyography Laboratory at Boston Children's Hospital; and Clinical Professor of Neurology at Harvard Medical School. Dr. Jones completed residencies in Internal Medicine and Neurology and a fellowship in neurological physiology at the Mayo Clinic. He served over 3 years in the United States Army as Chief of Neurology at 5th General Hospital, Bad Cannstatt, Germany. Dr. Jones was Board certified in neurology, clinical neurophysiology, and neuromuscular medicine. Upon completion of his training he joined the Lahey Clinic in 1972. In 1977 he also joined the neurology department at Boston Children's Hospital, founding the electromyography laboratory in 1979. Pediatric EMG became his major clinical research interest. Dr. Jones was co-editor of three major textbooks on childhood clinical neurophysiology and neuromuscular disorders. He was a co-founder of the biennial International Paediatric EMG Conference based at Great Ormond Street Children's Hospital, London, England. Recognized as one of the top neurologists in the U.S., Dr. Jones was an author and editor of several Netter publications including two editions of Netter's Neurology, The Netter Collection of Medical Illustrations: Nervous System, Volume 7, Part I (Brain) and Part II (Spinal Cord and Peripheral Motor and Sensory Systems), 2nd Editions (volumes in the Netter Green Book Collection). Dr. Jones authored and edited several other Netter publications and contributed over 200 peer-reviewed papers and book chapters. Dr. Jones served 8 years as a director of the American Board of Psychiatry and Neurology, becoming Chair of its Neurology Council in 2004. In 2007 he received the Distinguished Physician Award from the American Association of Neuromuscular and Electrodiagnostic Medicine. Lahey Clinic's Medical Staff Association recognized Dr. Jones in 2010 with its highest honor-the Frank Lahey Award for "commitment to the values of Dr. Frank Lahey: respect, teamwork, excellence, commitment to personal best." Dr. Jones was named Outstanding Teacher in Pediatric Neurology 2012 - 2013 by the Department of Neurology, Boston Children's Hospital, Harvard Medical School. He also received an award in recognition of his many years of dedicated teaching at Tufts University School of Medicine.

Dr. Michael Aminoff was born and educated in England, graduating from University College London in 1962 and as a physician from University College Hospital Medical School in 1965. He subsequently trained in neurology and neurophysiology at The National Hospital (Queen Square) in London, and in 1974 moved to UCSF where he has been Professor of Neurology since 1982. He was Director of the Clinical Neurophysiology Laboratories at UCSF until 2004, when he became Executive Vice Chair of the department of neurology, and also directs the Parkinson's Disease Clinic and Research Center, a National Parkinson Foundation Center of Excellence.

He is the author of more than 230 published medical or scientific articles, as well as the author or editor of some 29 books. His published scientific contributions led to the award of a Doctorate in Science, an advanced doctorate in the Faculty of Science, by the University of London in 2000. He is the one of the two editors-in-chief of the four-volume Encyclopedia of the Neurological Sciences (2nd Edition, Academic Press, 2014), and one of the series editors of the multi-volume Handbook of Clinical Neurology (Elsevier). He was Editor-in Chief of the journal Muscle & Nerve from 1998 to 2007 and serves on numerous other editorial boards. He was a director of the American Board of Psychiatry & Neurology for 8 years, and chair of the board in 2011.

Dr. Aminoff has received numerous prizes including the Lifetime Achievement Award of the American Association of Neuromuscular & Electrodiagnostic Medicine in 2006 and the A.B. Baker Award of the American Academy of Neurology for life-time achievements and contributions to medical education in 2007. In 2010, he was awarded the title of "Distinguished Professor" at the University of California, San Francisco.

He is married and has three children, one a pediatric rheumatologist, another a federal defense attorney, and the third an assistant district attorney.

Users Review

From reader reviews:

Marcus Galvan:

In other case, little men and women like to read book The Netter Collection of Medical Illustrations: Nervous System, Volume 7, Part II - Spinal Cord and Peripheral Motor and Sensory Systems, 2e (Netter Green Book Collection). You can choose the best book if you'd prefer reading a book. Provided that we know about how is important a new book The Netter Collection of Medical Illustrations: Nervous System, Volume 7, Part II - Spinal Cord and Peripheral Motor and Sensory Systems, 2e (Netter Green Book Collection). You can add expertise and of course you can around the world by just a book. Absolutely right, mainly because from book you can realize everything! From your country until finally foreign or abroad you will end up known. About simple thing until wonderful thing you may know that. In this era, we could open a book as well as searching by internet system. It is called e-book. You can use it when you feel bored to go to the library. Let's learn.

Joseph Felix:

This The Netter Collection of Medical Illustrations: Nervous System, Volume 7, Part II - Spinal Cord and Peripheral Motor and Sensory Systems, 2e (Netter Green Book Collection) book is absolutely not ordinary book, you have it then the world is in your hands. The benefit you obtain by reading this book will be information inside this book incredible fresh, you will get data which is getting deeper you read a lot of information you will get. This kind of The Netter Collection of Medical Illustrations: Nervous System, Volume 7, Part II - Spinal Cord and Peripheral Motor and Sensory Systems, 2e (Netter Green Book Collection) without we realize teach the one who studying it become critical in considering and analyzing. Don't possibly be worry The Netter Collection of Medical Illustrations: Nervous System, Volume 7, Part II - Spinal Cord and Peripheral Motor and Sensory Systems, 2e (Netter Green Book Collection) can bring any time you are and not make your case space or bookshelves' grow to be full because you can have it inside your lovely laptop even cellphone. This The Netter Collection of Medical Illustrations: Nervous System,

Volume 7, Part II - Spinal Cord and Peripheral Motor and Sensory Systems, 2e (Netter Green Book Collection) having good arrangement in word as well as layout, so you will not sense uninterested in reading.

Georgia Martinez:

The event that you get from The Netter Collection of Medical Illustrations: Nervous System, Volume 7, Part II - Spinal Cord and Peripheral Motor and Sensory Systems, 2e (Netter Green Book Collection) will be the more deep you looking the information that hide inside the words the more you get considering reading it. It does not mean that this book is hard to understand but The Netter Collection of Medical Illustrations: Nervous System, Volume 7, Part II - Spinal Cord and Peripheral Motor and Sensory Systems, 2e (Netter Green Book Collection) giving you excitement feeling of reading. The article author conveys their point in specific way that can be understood simply by anyone who read the idea because the author of this publication is well-known enough. This particular book also makes your personal vocabulary increase well. Making it easy to understand then can go with you, both in printed or e-book style are available. We suggest you for having this kind of The Netter Collection of Medical Illustrations: Nervous System, Volume 7, Part II - Spinal Cord and Peripheral Motor and Sensory Systems, 2e (Netter Green Book Collection) instantly.

Laurel Ramer:

Spent a free a chance to be fun activity to complete! A lot of people spent their free time with their family, or their friends. Usually they accomplishing activity like watching television, planning to beach, or picnic inside the park. They actually doing ditto every week. Do you feel it? Would you like to something different to fill your own free time/ holiday? May be reading a book is usually option to fill your free of charge time/ holiday. The first thing you ask may be what kinds of guide that you should read. If you want to test look for book, may be the publication untitled The Netter Collection of Medical Illustrations: Nervous System, Volume 7, Part II - Spinal Cord and Peripheral Motor and Sensory Systems, 2e (Netter Green Book Collection) can be good book to read. May be it may be best activity to you.
