Editorial Review

From the Inside Flap

Fly Fishing for Bonefish offers a definitive profile of this elusive fish and thoroughly describes the skills needed to catch it. Author Dick Brown shows how to find and see bonefish?how to spot feeding and mudding signs; how to understand the camouflage techniques the fish employs; and how temperature, tide, and weather all affect fish movement. He instructs how to target cruising and tailing fish, which stripping techniques work best, how to set your drag, and the most effective ways to strike and fight bonefish. An especially crucial section instructs the reader on fly selection and design, with color plates of more than seventy patterns tied by some of the most innovative fly tyers in the world, including Carl Richards, Craig Mathews, Jack Gartside, Jeffrey Cardenas, Lefty Kreh, Ben Estes, Tim Borski, and Jim Orthwein, among others.

The author also catalogs major bonefish destinations around the world. With its many photographs, dozens of line drawings by Bob White, and authoritative and extensive text, Fly Fishing for Bonefish is the definitive book on the species that is one of the greatest challenges in fly fishing.
