A Problem Solving Approach to Mathematics for Elementary School Teachers (11th Edition) By Rick Billstein, Shlomo Libeskind, Johnny Lott

More than 350,000 students have prepared for teaching mathematics with **A Problem Solving Approach to Mathematics for Elementary School Teachers** since its first edition, and it remains the gold standard today. This text not only helps students learn the material by promoting active learning and developing skills and concepts—it also provides an invaluable reference to future teachers by including professional development features and discussions of today's standards.

The **Eleventh Edition** is streamlined to keep students focused on what is most important. The **Common Core State Standards (CCSS)** have been integrated into the book to keep current with educational developments. The **Annotated Instructor's Edition** offers new **Integrating Mathematics and Pedagogy (IMAP)** video annotations, in addition to activity manual and e-manipulative CD annotations, to make it easier to incorporate active learning into your course. **MyMathLab®** is available to offer auto-graded exercises, course management, and classroom resources for future teachers.

To see available supplements that will enliven your course with activities, classroom videos, and professional development for future teachers, visit www.pearsonhighered.com/teachingmath

Editorial Review

About the Author

Rick Billstein is a Professor of Mathematics at the University of Montana. He has worked in mathematics teacher education at this university for over 40 years and his current research is in the areas of curriculum development and mathematics teacher education. He teaches courses for future teachers in the Mathematics Department. He served as the site director for the *Show-Me Project*, an NSF-funded project supporting the dissemination and implementation of standards-based middle grades mathematics curricula. He worked on the NSF grant *Tinker Plots* to develop new data analysis software and he serves on the Advisory Boards for several other national projects. From 1992-1997, he directed the NSF-funded *Six Through Eight Mathematics* (STEM) middle school mathematics curriculum project and is now directing the *Middle Grades MATHThematics Phase II Project*. Dr. Billstein has published articles in over 20 different journals, and has co-authored over 40 books, including ten editions of *A Problem Solving Approach to Mathematics for Elementary Teachers*. He typically does about 25 regional and national presentations per year and has worked in mathematics education at the international level. He presently serves on the Editorial Board of NCTM's *Mathematics Teaching in the Middle School*. Dr. Billstein was recently awarded the George M. Dennison Presidential Faculty Award for Distinguished Accomplishment at the University of Montana.

Shlomo Libeskind is a professor in the mathematics department at the University of Oregon in Eugene, Oregon, and has been responsible there for the mathematics teaching major since 1986. In addition to teaching and advising pre-service and in-service teachers, Dr. Libeskind has extensive writing experience (books, articles, and workshop materials) as well as in directing mathematics education projects. In teaching and in writing, Dr. Libeskind uses a heuristic approach to problem solving and proof; in this approach the reasonableness of each step in a solution or proof is emphasized along with a discussion on why one direction might be more promising than another. As part of his focus on the improvement of the teaching of mathematics, Dr. Libeskind is also involved at many levels locally, nationally, and worldwide in the evaluation of mathematics teacher preparation programs. In his home state, he is actively involved in schools and councils, as well as in reviewing materials for the state standards for college admission. Most recently (spring 2008) he visited teacher colleges in Israel as a Fulbright Fellow. During this visit he conducted observations and critiques of the preparation of mathematics teachers at several colleges in Northern Israel. Dr. Libeskind received his Bachelor's and Master's Degrees in Mathematics at the Technion (Israel Institute of Technology) and his PhD in Mathematics at the University of Wisconsin, Madison.

Johnny W. Lott began his teaching career in the public schools of DeKalb County, Georgia, outside Atlanta. There he taught mathematics in grades 8-12. He also taught one year at the Westminster Schools, grades 9-12, and one year in the Pelican, Alaska, school, grades 6-12. Johnny is the co-author of several books and has written numerous articles and other essays in the "Arithmetic Teacher", "Teaching Children Mathematics", "The Mathematics Teacher", "School Science and Mathematics", "Student Math Notes", and "Mathematics Education Dialogues". He was the Project Manager for the "Figure This!" publications and website developed by the National Council of Teachers of Mathematics (NCTM) and was project co-director of the State Systemic Initiative for Montana Mathematics and Science (SIMMS) Project. He has served on many NCTM committees, has been a member of its Board of Directors, and was its president from April 2002-April 2004. Dr. Lott is Professor Emeritus from the Department of Mathematical Sciences at The University of Montana, having been a full professor. He is currently the Director of the Center for Excellence in Teaching and Learning, Professor of Mathematics, and Professor of Education at the University of

Mississippi. Additionally, he is on the Steering Committee of the Park City Mathematics Institute, works with the International Seminar, the Designing and Delivering Professional Development Seminar, and is editor for its high school publications. His doctorate is in mathematics education from Georgia State University.

Users Review

From reader reviews:

Linda Davis:

Why don't make it to be your habit? Right now, try to ready your time to do the important work, like looking for your favorite guide and reading a reserve. Beside you can solve your short lived problem; you can add your knowledge by the guide entitled A Problem Solving Approach to Mathematics for Elementary School Teachers (11th Edition). Try to the actual book A Problem Solving Approach to Mathematics for Elementary School Teachers (11th Edition) as your pal. It means that it can for being your friend when you feel alone and beside regarding course make you smarter than before. Yeah, it is very fortunated for yourself. The book makes you considerably more confidence because you can know everything by the book. So , let's make new experience and knowledge with this book.

Catherine Nelson:

This A Problem Solving Approach to Mathematics for Elementary School Teachers (11th Edition) are reliable for you who want to certainly be a successful person, why. The key reason why of this A Problem Solving Approach to Mathematics for Elementary School Teachers (11th Edition) can be one of the great books you must have is actually giving you more than just simple examining food but feed an individual with information that might be will shock your before knowledge. This book will be handy, you can bring it just about everywhere and whenever your conditions in the e-book and printed types. Beside that this A Problem Solving Approach to Mathematics for Elementary School Teachers (11th Edition) giving you an enormous of experience for instance rich vocabulary, giving you tryout of critical thinking that we realize it useful in your day pastime. So , let's have it and revel in reading.

Rose Duprey:

Beside this specific A Problem Solving Approach to Mathematics for Elementary School Teachers (11th Edition) in your phone, it could give you a way to get closer to the new knowledge or info. The information and the knowledge you will got here is fresh through the oven so don't always be worry if you feel like an older people live in narrow community. It is good thing to have A Problem Solving Approach to Mathematics for Elementary School Teachers (11th Edition) because this book offers for you readable information. Do you occasionally have book but you would not get what it's interesting features of. Oh come on, that won't happen if you have this with your hand. The Enjoyable blend here cannot be questionable, just like treasuring beautiful island. So do you still want to miss this? Find this book as well as read it from now!

Kevin Masterson:

Do you like reading a guide? Confuse to looking for your selected book? Or your book had been rare? Why so many concern for the book? But any kind of people feel that they enjoy intended for reading. Some people likes examining, not only science book and also novel and A Problem Solving Approach to Mathematics for Elementary School Teachers (11th Edition) as well as others sources were given information for you. After you know how the great a book, you feel wish to read more and more. Science book was created for teacher or even students especially. Those textbooks are helping them to bring their knowledge. In various other case, beside science reserve, any other book likes A Problem Solving Approach to Mathematics for Elementary School Teachers (11th Edition) to make your spare time far more colorful. Many types of book like this one.
