**Motorcycle Fuel Injection Handbook (Motorbooks Workshop)** By Adam Wade

In the mid-1990s, fuel injection was available on only a handful of exotic, high-buck European motorcycles. Today it is the predominant motorcycle technology. Despite its prevalence, very few motorcyclists understand fuel injection. Motorcycle Fuel Injection Handbook dissects its mysteries, thoroughly explaining the technology from its origins through its subsequent development and examines ways to modify the technology for optimum performance. Systems from all the major manufacturers are included as are after-market products. Motorcycle Fuel Injection Handbook discusses remapping tips, racing bike systems, and future development. It is the ultimate resource for those who want to master the most important motorcycle technology of our time.

#### **From the Publisher**

Although it has been available on motorcycles starting in 1980, most mechanics and consumers know very little about electronic fuel injection and its use on motorcycles.

All that has changed with the publication of "The Motorcycle Fuel Injection Handbook" by Adam Wade. This member of the "Motorbooks Workshop" series from Motorbooks International educates consumer and mechanic alike about the basics of motorcycle fuel injection. Covering everything from engine and combustion dynamics to a comprehensive overview of aftermarket strategies and devices, it sets the standard for the understanding of and knowledge about today's motorcycle-based fuel injection.

Whether you're a dealership mechanic trying to simplify diagnosis, modification or repair, a bike owner trying to understand how to improve performance, or just someone who is generally curious about what's "under the hood", this book is loaded with tips, information, and examples to help everyone understand the new wave in motorcycle technology.

#### **About the Author**

Adam Wade spent a number of years as both an automotive mechanic specializing in fuel injection and an automobile restorer before his riding bug pushed his career over to the world of motorcycles. In the 10 years since then, he has worked for dealerships large and small in varying capacities, has been a successful AMA Pro Racing mechanic, and worked for Emgo, Aprilia, and Factory Pro Tuning. He currently is the tech author and photographer for Dual Sport News, the tech author for Motorcycle Consumer News, and is also a successful freelance motorsports photographer. He prefers riding alone and with no particular destination to group rides. He also fights Fibromyalgia daily.
