Internet Linguistics: A Student Guide

By David Crystal

Internet Linguistics: A Student Guide By David Crystal

The Internet is now an integral part of contemporary life, and linguists are increasingly studying its influence on language. In this student-friendly guidebook, leading language authority Professor David Crystal follows on from his landmark bestseller *Language and the Internet* and presents the area as a new field: Internet linguistics.

In his engaging trademark style, Crystal addresses the online linguistic issues that affect us on a daily basis, incorporating real-life examples drawn from his own studies and personal involvement with Internet companies. He provides new linguistic analyses of Twitter, Internet security, and online advertising, explores the evolving multilingual character of the Internet, and offers illuminating observations about a wide range of online behaviour, from spam to exclamation marks.

Including many activities and suggestions for further research, this is the essential introduction to a critical new field for students of all levels of English language, linguistics and new media.

Editorial Review

Review

'Crystal draws on his wealth of expertise to shed light on the important issues related to language form and use online.*Internet Linguistics* should be read by all graduate and undergraduate students interested in applied linguistics, sociolinguistics, and computer-mediated communication.' - *Mark Warschauer, University of California*

'David Crystal is a master linguist and master teacher. Given his expertise on language and the internet, he is the ideal author for this student text.' - *Naomi S. Baron, American University*

'As an undergraduate textbook *Internet Linguistics* would serve quite well, especially supplemented by original articles for depth or comparison and contrast of positions. Crystal suggests that the book assumes a basic knowledge of linguistic concepts, but most terms are understandable in context and he usually defines technical terms when they are critical to his point, so technical terms should not be a barrier. *Internet Linguistics* is certainly worth consideration as conveying a broad sense of a principled discipline in a format that is easy to read.' - *Sean Rintel, The University of Queensland*

About the Author

David Crystal is a freelance writer, lecturer and broadcaster, based in Holyhead, North Wales. He is author of numerous books including *Just a Phrase I'm Going Through* (Routledge 2009). The first Routledge David Crystal Lectures DVD, *The Future of Language*, was published in 2009.

Users Review

From reader reviews:

Timothy Parker:

What do you think of book? It is just for students because they're still students or the item for all people in the world, the actual best subject for that? Simply you can be answered for that query above. Every person has diverse personality and hobby for each and every other. Don't to be forced someone or something that they don't need do that. You must know how great along with important the book Internet Linguistics: A Student Guide. All type of book would you see on many solutions. You can look for the internet methods or other social media.

James Pierce:

Nowadays reading books are more than want or need but also be a life style. This reading addiction give you lot of advantages. Associate programs you got of course the knowledge the actual information inside the book that improve your knowledge and information. The details you get based on what kind of reserve you read, if you want get more knowledge just go with education and learning books but if you want really feel

happy read one along with theme for entertaining for instance comic or novel. Typically the Internet Linguistics: A Student Guide is kind of e-book which is giving the reader capricious experience.

Frances Wiggins:

Information is provisions for anyone to get better life, information currently can get by anyone with everywhere. The information can be a know-how or any news even a concern. What people must be consider any time those information which is from the former life are challenging to be find than now's taking seriously which one works to believe or which one typically the resource are convinced. If you have the unstable resource then you get it as your main information there will be huge disadvantage for you. All of those possibilities will not happen inside you if you take Internet Linguistics: A Student Guide as your daily resource information.

Martin Dowling:

The reserve untitled Internet Linguistics: A Student Guide is the guide that recommended to you to see. You can see the quality of the publication content that will be shown to anyone. The language that author use to explained their way of doing something is easily to understand. The article writer was did a lot of investigation when write the book, therefore the information that they share for you is absolutely accurate. You also can get the e-book of Internet Linguistics: A Student Guide from the publisher to make you much more enjoy free time.
