Managing Operations Across the Supply Chain with Connect Access Card

By Morgan Swink, Steven Melnyk, M. Bixby Cooper, Janet L. Hartley

The Second Edition of *Managing Operations Across the Supply Chain* provides a global, supply chain perspective of operations management and in supply chain management courses that do not require an operations management prerequisite. The Second Edition explains familiar operations management topics as viewed through a supply chain management perspective and reflects key shifts in operations management, including transitions that demand new tools, concepts and approaches to address the demands and challenges business face today and will in the future.

Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.
