#### Review

Transformational Speaking literally transformed me as I worked my way through the book. Filled with the heart-wisdom of a woman who knows her territory and exercises that help you go straight to the core of who you are, this book will transform you too . . . if you let it.

This is true if you are a beginning speaker or a speaking pro. Gail makes you think, first about yourself: what are my innate talents and gifts; what is my core message? Our lives contain the answers. That alone is worth much more than the price of the book.

And just when you believe there is nothing left she has to tell you she comes in with: know your audience, "re-live don't remember", the nuts and bolts information of the business of speaking.

This is a real human being demonstrating what she is writing about. Do I need to say more? Yes! I strongly urge you to buy the book. Read Transformational Speaking if you want to find your voice, be your most powerful self, contribute your best gifts to the world and, of course, be a transformational speaker.
