Data Structures and Other Objects Using C++ (4th Edition) By Michael Main, Walter Savitch

Data Structures and Other Objects Using C++ takes a gentle approach to the data structures course in C++. Providing an early, self-contained review of object-oriented programming and C++, this text gives students a firm grasp of key concepts and allows those experienced in another language to adjust easily. Flexible by design, professors have the option of emphasizing object-oriented programming, covering recursion and sorting early, or accelerating the pace of the course. Finally, a solid foundation in building and using abstract data types is also provided, along with an assortment of advanced topics such as B-trees for project building and graphs.

About the Author

Michael Main is an Associate Professor of Computer Science at the University of Colorado at Boulder. He earned his BS, MS, and PhD at Washington State University.

Walter Savitch is Professor Emeritus of Computer Science at the University of California at San Diego. His interests include complexity theory, formal language theory, computational linguistics, and the development of computer science education materials, including several leading textbooks. He holds a PhD in mathematics from the University of California at Berkeley.

Users Review

From reader reviews:

Mae Saari:

Why don't make it to be your habit? Right now, try to prepare your time to do the important work, like looking for your favorite reserve and reading a reserve. Beside you can solve your trouble; you can add your knowledge by the book entitled Data Structures and Other Objects Using C++ (4th Edition). Try to stumble through book Data Structures and Other Objects Using C++ (4th Edition) as your pal. It means that it can for being your friend when you really feel alone and beside those of course make you smarter than ever before. Yeah, it is very fortunated for you. The book makes you much more confidence because you can know anything by the book. So , we should make new experience in addition to knowledge with this book.

Priscilla McCreary:

What do you consider book? It is just for students as they are still students or the idea for all people in the world, exactly what the best subject for that? Just simply you can be answered for that question above. Every person has distinct personality and hobby for every other. Don't to be pushed someone or something that they don't desire do that. You must know how great along with important the book Data Structures and Other Objects Using C++ (4th Edition). All type of book are you able to see on many methods. You can look for the internet resources or other social media.

Leesa Banta:

Are you kind of occupied person, only have 10 or 15 minute in your day to upgrading your mind ability or thinking skill perhaps analytical thinking? Then you have problem with the book than can satisfy your small amount of time to read it because pretty much everything time you only find reserve that need more time to be learn. Data Structures and Other Objects Using C++ (4th Edition) can be your answer as it can be read by you who have those short extra time problems.

Bruno Reed:

You may spend your free time to learn this book this guide. This Data Structures and Other Objects Using C++ (4th Edition) is simple to deliver you can read it in the park, in the beach, train along with soon. If you did not possess much space to bring often the printed book, you can buy the particular e-book. It is make you better to read it. You can save often the book in your smart phone. So there are a lot of benefits that you will get when you buy this book.
